THE BELVEDERE PREPARATORY SCHOOL

CHILD PROTECTION (SAFEGUARDING) POLICY

1. INTRODUCTION

The Belvedere Preparatory School fully recognises its responsibilities for Child Protection. Every pupil should feel safe and protected from any form of abuse. This is defined in this policy as any kind of neglect, non-accidental physical injury, sexual abuse and sexual exploitation or emotional ill-treatment. This policy applies to all teaching and non-teaching staff and volunteers, is available on the school's website and is available to parents on request. It applies to all areas of the school including Early Years (EYFS).

This policy has been written in accordance with:

I. The DfE guidance document 'Keeping Children Safe in Education' (KCSIE September 2021), the updated guidance provided in the document 'Working Together to Safeguard Children' (July 2018) (WTSC) and 'Early years and later years (under-8's) childcare - Disqualification under the Childcare Act 2006' (March 2015), as amended in July 2018.

II. Locally agreed inter-agency procedures; the school will participate as appropriate in 'common assessment framework' (CAF) or the 'team around the child' (TAC) approaches, or a 'co-ordinated offer of early help', in accordance with WTSC.

III. The school recognises the importance of early help in school (see section 4, Procedures) and the difference between a concern and a child in immediate danger; in each case the DSL will work in accordance with WTSC 2015 and the LSCB referral thresholds.

Safeguarding is everyone's responsibility, and anyone can make a referral, which will usually be to the school's DSL, but can be directly to Children's Social Care, if necessary.

The school aims to:

- Ensure safe recruitment practices in checking the suitability of staff and volunteers to work with children.
- Raise awareness of child protection issues and equip children with the skills needed to keep them safe.
- Develop and implement procedures for identifying and reporting cases or suspected cases of abuse.
- Support a pupil who has been abused in accordance with his or her agreed child protection plan.
- Maintain a safe environment in which children can learn and develop.
- Communicate readily with LASCBS whenever an allegation or disclosure of abuse has been made.

The school endeavours to provide a strongly supportive pastoral environment, in which children have a range of adults to whom they can turn, should they have a concern. These include the class teacher, teaching assistant, specialist teachers and school council. Details of helplines are also available.

2. SAFE RECRUITMENT

The Belvedere Preparatory School recognises the importance of following recruitment and selection procedures on the appointment of employees and volunteers which help to deter, reject or identify people who might abuse children, or are otherwise unsuited to work with them. Recruitment procedures are carried out in accordance with guidance given in 'KCSIE (September 2021)'.

To ensure safer recruitment, the procedures are designed to:

- Scrutinise applicants
- Verify identity
- Verify academic or vocational qualifications
- Obtain professional and character references
- Check previous employment history
- Ensure that a candidate has the health and physical capacity for the job
- Incorporate a face-to-face interview
- Include a barred list and Disclosure and Barring Services (DBS) check
- Include an overseas check equivalent to the DBS check for staff appointed directly from overseas
- Verify the applicant's right to work in the UK
- Include a prohibition order check (for those who undertake 'teaching work'*) and also an EEA prohibition check for staff appointed to do teaching work from the EEA other than England
(See Safer Recruitment guidelines and checklist for further detail)
- Include a prohibition from management check (for the headteacher, those who are on the school's leadership team and for teaching heads of department)
- Include, when required, a self-declaration in respect of the Childcare Disqualification Regulations.

** 'Teaching work': a definition is provided in The Teachers' Disciplinary (England) Regulations 2012 and cited at paragraph 234 in the ISI Regulatory Handbook. The school will judge each appointment on a case-by-case basis to determine whether the role includes 'teaching work'.*

These procedures apply to all adults who may undertake a regulated activity (unsupervised) with the children in either a paid or voluntary capacity and any other staff where KCSIE requires checks to be undertaken. The school will verify that child protection checks and procedures listed above have been successfully undertaken for all staff employed by another organisation and who work with the school's pupils either at the school or on another site. This applies, for example, to staff at a swimming pool or an outward-bound activity centre and to visiting staff running activities or undertaking sports coaching, even where such staff are paid directly by the parents.

It is the responsibility of those who work or volunteer at the school, or with the school's pupils at a different venue, to inform the Headteacher immediately if, during the time of their engagement with

the school, their circumstances change in such a way that they become disqualified from working in childcare, prohibited from teaching or in any other way barred from working with children.

Childcare Disqualification Regulations.

Guidance, available separately, has been published by Belvedere Prep in relation to these requirements, covering disqualification from working in childcare. The school will

- a) inform relevant staff and volunteers about the legislation,
- b) gather sufficient and accurate information about whether any member of staff in a relevant childcare setting is disqualified, and keep a record on the Single Central Register, including the date disqualification checks were completed. If a person is found to be disqualified, he or she will not be able to continue working in a role covered by the regulations.

If appropriate, the school will consider a transfer to other duties. The school will inform Ofsted (and copy to ISI) if satisfied that a person working in a relevant setting falls within one of the disqualification criteria. A copy of the school's 'safer recruitment guidelines and checklist' is available on request.

3. AWARENESS OF CHILD PROTECTION ISSUES

We recognise that, because of their day-to-day contact with children, staff at the school are well placed to observe the outward signs of abuse. The Belvedere Preparatory School will therefore:

- Establish and maintain an environment where children feel secure, are encouraged to talk, and are listened to;
 - Ensure that children know there are adults in the school whom they can approach if they are worried or in difficulty;
 - Ensure that staff recognise the school's duties both to children in need and to children at risk of harm;
 - Include in the curriculum activities and opportunities for PSHE which equip children with the skills they need to stay safe from abuse, including keeping safe online, and to know whom to turn to for help;
 - Include in the curriculum material that will help children develop realistic attitudes to the responsibilities of adult life, particularly with regard to childcare and parenting skills;
 - Ensure all staff, including ancillary staff and representatives of the proprietors, receive comprehensive training on child protection issues, as specified by the local safeguarding children board (LSCB) in frequency and content, not less than every three years supplemented by informal updates as required, but at least annually;
 - Ensure that all staff have read and understand at least part 1 of KCSIE (September 2021); the understanding of staff will be secured by the following measures undertaken by the school
- Deliver INSET Training
 - Deliver reminders in Staff Meetings

- Other means of probing understanding, such as the safeguarding governors' interviews with random staff at the annual Safeguarding Review;

- Ensure that all school leaders and staff that work directly with children read Annex B of KSCIE 2021 which deal with types of abuse and matters such as mental health, children missing in education, child criminal exploitation, child sexual exploitation, FGM, radicalisation, forced marriage and honour-based violence;
- Ensure that temporary and voluntary staff who work with children are made aware of the arrangements, based on a risk-based approach – whereby the school assesses the level of detail with which such staff should be provided.
- All new staff and volunteers will receive training as part of their induction process, which will include an explanation of the systems to support Safeguarding.
- To ensure best practice, the DSLs for child protection will receive appropriate training, including in inter-agency working, every two years, supplemented by informal updates as required, but at least annually in accordance with locally agreed procedures and the requirements of KCSIE Annex B.

In order to ensure that new staff are fully aware of their duties regarding safeguarding, as part of the induction training for all staff, they will receive an explanation of:

- This safeguarding policy
- The staff code of conduct/behaviour policy
- The behaviour policy for pupils
- The school's safeguarding response to children missing education
- The role and identity of the DSL, and Deputy
- The school's approach to online safety

Additionally, at induction, staff must be provided with a copy of:

- This safeguarding policy
- The staff code of conduct/behaviour policy (see 10, below in this policy)
- The Children Missing Education policy (contained within Appendix 1 of this policy)
- The role of the DSL and DDSL(s) (contained within this policy)
- Part 1 and Annex B of KCSIE (September 2021)
- The whistle-blowing policy
- Specific guidance related to including Female Genital Mutilation, Forced Marriage, Child Exploitation including sexual and criminal, Extremism and Radicalisation, Neglect, Sexual violence and harassment, and online-safety.

4. PROCEDURES

The school will follow the procedures set out by LASCB and take account of guidance issued by the Department for Education (DfE), as noted above. Links to these documents can be found in Appendix 2.

In order to meet the aims of this policy, the school has the following measures in place:

Belvedere Prep Board ensures that the school has a DSL for child protection who has received appropriate training and support for such a role and a DDSL with a similar level of training to cover in the event of absence. In the event of the DSL being the subject of an allegation, the school's response will be co-ordinated by the DDSL, who will liaise with Safeguarding Board Member.

Mrs K. Currie oversees safeguarding arrangements on behalf of the board of directors and is also designated by the board to oversee and monitor the school's safeguarding policy and practice. She conducts an annual Safeguarding Review of the school's child protection policy and procedures, and of the efficiency with which the related duties have been discharged. As a result, any deficiencies or weaknesses in safeguarding arrangements will be remedied immediately.

The school ensures that every member of staff (including temporary and supply staff, and volunteers) know and understand:

- The name of the DSL and DDSL and their roles
- The responsibility of all staff to be alert to the signs of abuse and their responsibility for referring any concerns to the DSL.
- The procedures identified within the school policy.

The school ensures that parents have an understanding of the responsibility placed on the school and staff in relation to safeguarding and child protection, by publishing appropriate policies on the school's website.

The school ensures that members of staff are aware of the need to act on concerns about the welfare of a child immediately and to speak with the DSL or DDSL in accordance with this policy. Staff need to be alert to signs of abuse and know how to respond to a pupil who may tell of abuse. The school provides child protection training within the induction programme for all new staff and volunteers. The yearly training for staff is provided by those who are DSLs within the school and have up-to-date inter-agency training.

The school is committed to developing effective links with relevant agencies and cooperating as required with their enquiries regarding child protection matters. The school will deal appropriately and immediately with every suggestion or complaint of abuse. Any allegation or suspicion of abuse, from within or outside the school, will be managed in accordance with this policy and, in all proper circumstances, will be referred to an external agency for investigation. The school will not undertake its own investigations of allegations without prior consultation with the LADO(s), or in the most serious cases, the police, so as not to jeopardise statutory investigations. In borderline cases, discussions with the LADO(s) can be held informally and without naming the school or individual.

For children in need, a referral will be made to Children's Social Care, and for children at risk, a referral will be made to Children's Social Care immediately. They have a duty to respond. Staff should also be alert to any child who may benefit from early help. The DSL has responsibility to take the lead in matters of early help. In particular, staff should be alert to the potential need for early help for a child who:

- is disabled and has specific additional needs;
- has special educational needs (whether or not they have a statutory education, health and care plan);
- is a young carer;
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups;
- is frequently missing/goes missing from care or from home;
- is misusing drugs or alcohol themselves;
- is at risk of modern slavery, trafficking or exploitation;
- is in a family circumstance presenting challenges for the child, such as substance abuse, adult mental health problems or domestic abuse;
- has returned home to their family from care;
- is showing early signs of abuse and/or neglect;
- is at risk of being radicalised or exploited;
- is a privately fostered child;
- has health conditions;
- has mental health needs;
- has a family member in prison or who is affected by parental offending;
- is at risk of honour-based abuse (such as female genital mutilation or forced marriage);
- is persistently absent from school, including persistent absences for part of the school day.

Detailed information on early help can be found in Chapter 1 of WTSC 2018.

The DSLs and staff must be mindful that early information sharing is vital for effective identification, assessment and allocation of appropriate service provision. Staff should not assume a colleague or another professional will take action and share information that might be critical in keeping children safe. The DfE guidance 'information sharing advice for safeguarding practitioners (see link in Appendix 2) supports staff who have to make decisions about sharing information.

Where there is a concern about a member of staff, the referral will be made to the local authority designated officer, or team of officers (LADO) within one working day. Other agencies may be contacted, such as the child protection unit of the police (CPU) or the NSPCC, in accordance with the procedures published by LASCBS. If a crime has been committed, the matter will be reported to the police and, in cases of serious harm, the police will be informed from the outset.

When following up incidents, disclosures or allegations, staff will consider the welfare of all children. Where it is deemed necessary to speak with pupils, those involved will be offered the option of having another adult present. Where allegations are of a serious nature, parents or guardians will routinely

be invited to attend, unless the allegation is of a nature where their presence may cause greater upset or jeopardise any possible police action.

The school will maintain written records of concerns, discussions and decisions made, and the reasons for those decisions, about children (noting the date, event and action taken), even when there is no need to refer the matter immediately. If the latter is the case, the school's record-keeping will include an explanation of why it was considered that the threshold for referral was not met.

The school ensures that all records are kept securely, separate from the main pupil file, and in secure locations. Files are only accessed by those who need to see them, and any sharing of information happens in line with information sharing advice set out in Keeping Children Safe in Education 2021.

Where children leave the school or college (including for in year transfers) the DSL should ensure their child protection file is transferred to the new school or college as soon as possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. This should be transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained. Receiving schools and colleges should ensure key staff such as designated safeguarding leads and SENCOs or the named person with oversight for SEN in colleges, are aware as required.

In addition to the child protection file, the designated safeguarding lead should also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving to help them put in place the right support to safeguard the child and help the child thrive in the new setting. A lack of information about a child's circumstances can impact on the child's safety, welfare, and educational outcomes. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives.

On making a referral, the school can expect the local authority to make a decision within one working day about the type of response that is required, letting the referrer know the outcome. This will include determining whether:

- The child requires immediate protection and urgent action is required;
- The child is in need, and should be assessed under section 17;
- There is reasonable cause to suspect the child is suffering, or likely to suffer, significant harm, and whether enquiries must be made, and the child assessed under section 47;
- Any services are required by the child and family and what type of services; and
- Further specialist assessments are required in order to help the local authority to decide what further action to take.

The school should follow the matter up with the local authority if information is not forthcoming. For further information on action to be taken in relation to safeguarding concerns staff can refer to the flowchart on page 23 of KCSIE 2021.

The school maintains and operates practices which promote this policy and which, so far as possible, ensure that teachers and others who are innocent are not prejudiced by false allegations. In this respect, the school acknowledges the updated guidance provided in Part 4 of the DfE document KCSIE (September 2021).

The school ensures safe recruitment practices are carried out and that key staff have undertaken safer recruitment training, this needs to be renewed every five years. All interview panels will include at least one person who has undertaken such training.

The school takes all practicable steps to ensure that school premises are as secure as circumstances permit.

The school ensures that the duty of care towards pupils and staff is promoted, by raising awareness of illegal, unsafe and unwise behaviour and assists staff to monitor their own standards and practice. The school has a culture of safety and reflective practice, where staff are valued and concerns can be raised, including about poor or unsafe practice and potential failures in the school's safeguarding regime. Its whistleblowing policy is available as part of the employment manual. Staff are made familiar with the policy through staff training. Whistleblowing is covered in the school's staff code of conduct and its programme of induction for new staff. The Whistleblowing Policy is available separately to those who work or volunteer at the school but are not employees of the school. The school operates robust and sensible health and safety and fire protection procedures.

The school is alert to the medical needs of all children (particularly those with specific requirements).

IN THE EVENT OF AN ALLEGATION OR A DISCLOSURE BY A CHILD, THE FOLLOWING WILL BE

CONSIDERED:

a) INITIAL COMPLAINT

A member of staff suspecting, or hearing a complaint of, abuse:

- Must listen carefully to the child and keep an open mind;
- Must not take a decision as to whether or not abuse has taken place;
- Must not ask leading questions, that is, a question which suggests its own answer. "Use the TED Questions" formula below;
- Must reassure the child but not give a guarantee of absolute confidentiality;
- Must explain the need to pass the information to a DSL, who will ensure that the correct action is taken;
- Must keep a sufficient written record of the conversation. The record must include the date, time and place of the conversation and the essence of what was said and done by whom and in whose presence. The record should be signed by the person making it and should use names, not initials;
- Must keep the record secure and hand it to the DSL;
- Must consider the need to immediately protect the child and contacting the police and/or ringing for an ambulance if the child is injured;
- Must understand their responsibility to escalate their concerns and 'press for reconsideration' if a child remains at risk or their needs are not met or if it appears that the school is not taking effective action in line with expected procedures. This includes the understanding that any member of staff can make a referral to Children's Services if required to do.

TED Questions:

Tell me about this

Explain what happened

Describe this to me

b) PRESERVING EVIDENCE

All evidence, (for example, scribbled notes, mobile phones containing text messages, clothing, computers), must be safeguarded and preserved.

c) REPORTING

A member of staff needs only reasonable cause for concern in order to act. One sentence from the child, indicating abuse or non-accidental injury, provides staff with reasonable grounds and is sufficient for them to act. This may also apply if clear information comes from a sibling or another adult. However, as many of the signs of child abuse are also commonly associated with other medical, social or psychological problems, a member of staff may naturally wish to discuss some initial concerns with the DSL. All suspicion or complaints of abuse must be reported only to the DSL, or if it involves the DSL, to the DDSL, who will liaise with the Headteacher, (unless the Headteacher is the subject of the suspicion or complaint).

d) ACTION BY THE DSL:

The DSL will contact the Safeguarding in Education Team (Liverpool LEA) if she believes a child may be in need or at risk of significant harm and may follow this up with a written referral to Social Care (Liverpool LEA). If appropriate, the child may well be told what action is being taken and what will happen next. Allegations against someone in a position of trust are the only cases that must be reported to the LADO. If there is room for doubt as to whether a referral should be made, the DSL may consult with appropriate professionals on an informal basis.

The DSL's options for action include:

- managing any support for the child internally via the school's own pastoral support processes;
- an early help assessment; or
- a referral for statutory services, for example, as the child might be in need, is in need, or suffering or likely to suffer harm.

Action taken may also include:

- Sharing information with the Headteacher, safeguarding Board Member or DDSL;
- Contacting the parents or carers;
- Calling an internal pastoral meeting to discuss the situation – all appropriate persons would be invited (e.g. class teacher, head of pastoral care, school nurse). At this point a pastoral care plan may be instigated.

The action to be taken will take into account:

- The Belvedere Preparatory School Child Protection (Safeguarding) Policy;
- The procedures published by LASCBS;

- The nature and seriousness of the suspicion or complaint. Any complaint involving serious harm or a serious criminal offence will always be referred to the Safeguarding in Education Team, the LADO (if the person under suspicion is in a position of trust) and the police without further investigation within the school;
- The wishes of the pupil, who has complained, provided that the pupil is of sufficient understanding and maturity and properly informed. However, there may be times, if the pupil is suffering or is at risk of suffering significant harm, when the situation is so serious that decisions may need to be taken, after all appropriate consultation, that override a pupil's wishes. The welfare of the child is paramount;
- The wishes of parents, provided they have no interest which is in conflict with the pupil's best interests and that they are properly informed. Again, it may be necessary, after all appropriate consultation, to override parental wishes in some circumstances;
- Any concern from the DSL that disclosing information to parents would put a child at risk. In this case, he or she will take further advice from the relevant professionals before making a decision to disclose;
- Duties of confidentiality, so far as applicable;
- The lawful rights and interests of the school community as a whole, including its employees and its insurers.

e) REFERRAL GUIDELINES

When deciding whether to make a referral, following an allegation or suspicion of abuse, the head and DSL should not make their own decision over what appear to be borderline cases, but rather the doubts and concerns should be discussed with the Safeguarding in Education Team or Social Care. This may be done tentatively and without giving names in the first instance. What appears trivial at first can later be revealed to be much more serious, and an allegation of child abuse or neglect may lead to a criminal investigation. Thus, the school should not do anything that may jeopardise a police investigation, such as asking a child leading questions or attempting to investigate the allegations of abuse. However, if sufficient concern develops that a child may be suffering or is at risk of suffering significant harm, a referral will be made without delay.

The Designated Safeguarding Lead or Deputy can refer to an online tool which helps professionals assess a child's level of need and decide which method of referral they should complete (EHAT or MARF). The online 'Levels of Need Slider' tool can be accessed here: <https://liverpool.gov.uk/referrals/childrens-social-care-referrals/assess-a-child-s-levels-of-need/>

Contact will be made with the Safeguarding in Education Team or Social Care within 24 hours of a disclosure being made. If the initial referral is made by telephone, the DSL will confirm the referral in writing within 24 hours of the initial telephone call. If no response or acknowledgment is received within one working day, the DSL will contact the Safeguarding in Education Team or Social Care immediately to determine the outcome of the referral.

'School Improvement Liverpool Schools' Safeguarding Handbook' and Part 1 of Keeping Children Safe in Education (DFE 2021) provides key flowcharts and guidance to support staff and volunteers' understanding and decision making. This will support staff to make a referral themselves should that become necessary. The Designated Safeguarding Lead should be informed, as soon as possible, following the need for another member of staff to make a referral.

'School Improvement Liverpool Schools' Safeguarding Handbook' will provide additional guidance about indicators of abuse and harm and how to respond to a disclosure. Guidance is also available on the NSPCC website: <https://www.nspcc.org.uk/preventing-abuse/>

If a teacher in the course of their work in the profession, discovers that an act of Female Genital Mutilation appears to have been carried out on a girl under the age of 18 the teacher must report this to the police. Keeping Children Safe in Education provides additional guidance.

Concerns that a child is being radicalised should follow the normal safeguarding referral mechanism with an additional Channel or Prevent referral being made to the Local Authority's Prevent and Channel team. Contact details can be found in the School's Safeguarding Handbook.

Contextual Safeguarding: Safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside the school. All staff, but especially the DSL or deputy need to consider the context within which such incidents and/or behaviours occur. Known as contextual safeguarding, this simply means that assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to the child's safety and/or welfare. Children's social care assessments should consider such factors, so it is important that the school provides as much information as possible as part of the referral process. This will allow any assessment to consider all the available evidence and the full context of any abuse. A link to further information on contextual safeguarding can be found in Appendix 2.

f) ALLEGATIONS AGAINST STAFF, VOLUNTEERS OR THE HEADTEACHER

When dealing with allegations against the Headteacher, staff or volunteers, the school aims to strike a balance between the need to protect children from abuse and the need to protect the Headteacher, staff and volunteers from false or unfounded allegations;

The school will follow the guidance in Part 4 of KCSIE (September 2021).

Suspension will not be an automatic response to an allegation. Full consideration will be given to all the options, subject to the need to ensure the safety and welfare of the pupil or pupils concerned and the need for a full and fair investigation. Where an allegation or complaint is made against the Headteacher, the DSL will report to and consult immediately with the Safeguarding Board Member, School proprietor, according to availability. This will be done without consultation with the Headteacher. The Safeguarding Governor will make immediate contact with the LADO.

Where an allegation or complaint is made against staff, volunteers or the DSL, the Headteacher will be informed or, in her absence, the Safeguarding Governor and/or proprietor. If a decision is taken that a member of staff is suspended during the investigation the school recognises that this does not infer guilt. Under these circumstances any suspension is a 'neutral' act, and no action should be viewed as an expression of opinion or judgement.

In the event of any person (in any capacity, whether employed, contracted, a volunteer or student) leaving the school as a result of their being considered unsuitable to work with children, or who has harmed or poses a risk of harm to children, the school will report this to the Disclosure and Barring Service (DBS) promptly, within one working week. This applies equally to anyone who would have been removed from the school had he or she not left earlier. The school recognises that the proprietors of independent schools have a legal duty to respond to requests from the DBS for information they hold already, but do not have to find it from other sources.

A referral will be made to the Teaching Regulation Agency (TRA) where a teacher has been dismissed (or would have been dismissed had he/she not resigned) and a prohibition order may be appropriate.

The reasons for such a referral include situations where the member of staff has been dismissed for unacceptable professional conduct, conduct that may bring the profession into disrepute or a conviction, at any time, for a relevant offence. The school need only take this action if the matter has not been reported to the Disclosure and Barring Service; all matters reported to the DBS will be shared with TRA. A referral to the DBS would be undertaken on the advice of LASCBA LADO. Advice about whether an allegation against a teacher is sufficiently serious to refer to the TRA can be found in 'Teacher misconduct: the prohibition of teachers (October 2018)'. Further guidance is published on the TRA website.

The school will follow the guidance in Part 4 of the DfE document KCSIE (September 2021) to ensure that:

- Procedures are applied with common sense and judgement;
- Allegations found to be malicious are removed from personnel records;
- Records are kept of all other allegations but any that are not substantiated, are unfounded or malicious should not be referred to in employer references.

Further detail with regards to the procedures for dealing with allegations of abuse against staff are available from the school.

If an adult who works with children has involvement from Children's Services in respect of their own child, or a child that they live with or have contact with, it is the responsibility of Children's Services to assess the immediate concern and inform the LADO of whether the adult poses a risk to children. Examples of this may include:

- Allegations of assault, physical or emotional, on their own child or on a child they live with or have contact with
- Domestic abuse
- Substance misuse
- Lives with or is in a relationship with a person who is identified as a risk to children

The situation would meet the threshold of LADO should the child in question be made subject to a Child Protection plan. This is because Children's Services has determined that the adult presents a risk to the associated child either directly or due to a failure to protect.

If school are made aware of any of the circumstances detailed above, they will have a consultation with the LADO in order to determine whether the threshold is met for a referral under the managing allegations process.

All staff should ensure that they disclose information about themselves relating to the above to the Head teacher as soon as possible. School will create an environment and culture where staff are supported and empowered to be able to do this.

g) LOW-LEVEL CONCERNS

Belvedere Prep recognises that there may be times when there are concerns about a professional's behaviour which do not meet the harm threshold as set out in this policy. This includes third party

staff and volunteers. Concerns such as this may arise in several ways and from a number of sources. Examples of this may be:

1. Suspicion, complaint or disclosure made by a child, parent or other adult within or outside of school; or
2. As a result of vetting checks undertaken during recruitment.

Belvedere Prep promotes an open and transparent culture in which all concerns about adults working in or on behalf of the school are dealt with promptly and appropriately. Creating this culture in which all concerns are shared responsibly, in a timely way with the right person, and are recorded and dealt with appropriately is critical to effective safeguarding practice. This culture enables the school to identify concerning, problematic or inappropriate behaviour at the earliest possible stage, minimises the risk of abuse and ensures that all adults working in or on behalf of the school are clear about professional boundaries and act within these, in accordance with our ethos and values. This culture also empowers individuals to share concerns with key staff about their own behaviour at the earliest possible opportunity.

The term 'low-level concern' does not mean that the behaviour is insignificant. It means a behaviour towards a child which does not meet the threshold set out in this policy and part 4 of Keeping Children Safe in Education 2021. A low-level concern is any concern (no matter how small, and even if no more than causing a sense of unease) that an adult working in or on behalf of the school may have acted in a way that:

1. is not consistent with the staff code of conduct, including conduct outside of the workplace, and/or
2. does not meet the allegations threshold or is otherwise not considered serious enough for a referral to the LADO.

Examples of such behaviour could include, but are not limited to:

- being over friendly with children;
- having favourites;
- taking photographs of children on their mobile phone;
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door; or,
- using inappropriate sexualised, intimidating or offensive language.

Behaviours which are not consistent with the standards and values of our school, and which do not meet the expectations set out in our code of conduct for staff, must be addressed. Behaviours such as this, can exist on a spectrum from inadvertent or thoughtless, or behaviour that may look to be inappropriate, but might not be in specific circumstances, through to that which is ultimately intended to enable abuse.

It is essential that concerns such as this are shared responsibly and with the right person, and that they are recorded and dealt with appropriately. Effective reporting and management of such concerns also protects staff from potential false allegations of misunderstandings. Concerns should be shared as soon as is reasonably possible, and ideally within 24 hours of becoming aware of a problem, however it is never too late to share a concern.

Occasionally a member of staff may find themselves in a situation which could be misinterpreted or may appear compromising to others. Equally, a member of staff may have behaved in a manner which, on reflection, they consider falling below the standards set out within our code of conduct for staff. Self-reporting such circumstances is actively encouraged as it allows issues to be dealt with at the

earliest opportunity and it is an important means of maintaining our culture of everyone aspiring to have the highest standards of conduct and behaviour.

Staff do not need to be able to determine whether their concern is a low-level concern, or if it would be dealt with under our managing allegations policy. Staff must simply be empowered to share their concern. The determination regarding process will be made by the designated safeguarding lead and headteacher.

Low-level concerns should be reported in writing to the DSL. Where a low-level concern is in relation to the designated safeguarding lead, it should be shared with the headteacher.

If a report of a low-level concern is received, it will be dealt with responsively, sensitively, and proportionately. Where a concern is reported, the designated safeguarding lead should collect as much evidence as possible by speaking directly with the person who raised the concern (unless it has been raised anonymously), and by speaking to the individual involved along with any witnesses. The information collected will help to categorise the behaviour and determine what further action may need to be taken. Support and advice will be provided to ensure any identified behaviours can be corrected at an early stage.

All low-level concerns will be recorded in writing by the DSL and this record should include the details of the concern, the context and the action taken, including the rationale for any decisions. Records must be kept confidential and held securely in line with the Data Protection Act 2018 and the UK General Data Protection Regulation. Records will be kept in individual personnel files and will be retained for the duration of the individual's employment.

Records should be reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, school will decide on a course of action either through our disciplinary procedures or where a pattern of behaviour moves from a concern to meeting the harms threshold, referral to LADO.

The DSL will regularly and effectively communicate with the Headteacher, all low-level concerns reported to them, along with the outcome of the concern. This is to ensure there is appropriate scrutiny and analysis of information in order to agree at what point a series of low-level concerns or a pattern of behaviour would escalate and meet the threshold set out in this policy and part 4 of Keeping Children Safe in Education 2021.

Low-level concerns will not be included in references unless they relate to an issue which would normally be included in a reference. Paragraph 422 of Keeping Children Safe in Education specifies: *"However, where a low-level concern (or group of concerns) has met the threshold for referral to the LADO and found to be substantiated, it should be referenced to in a reference."*

h) ALLEGATIONS AGAINST PUPILS (including Peer-on-Peer abuse)

Introduction: The school takes a firm line in relation to possible peer-on-peer abuse. It can take on many forms, including:

- sexual violence and sexual harassment;
- physical abuse such as hitting, kicking, shaking, biting, hair pulling;
- otherwise causing physical harm;
- sexting;

- initiating/hazing type violence and rituals,
- abuse in intimate personal relationships between peers,
- causing someone to engage in sexual activity without their consent (for example, forcing someone to strip, or to engage in sexual activity with a third party).

With regard to sexual violence and sexual harassment, the school pays due regard to Part 5 of KCSIE (September 2021) and the separate DfE guidance “Sexual violence and sexual harassment between children in schools and colleges”. The school holds and promotes a clear view that sexual violence and sexual harassment are never acceptable and will not be tolerated.

The school’s procedures in relation to peer-on-peer abuse follow the DfE advice to adopt a “whole school” approach, involving all staff, pupils, Board Members and parents, as part of the school’s broad approach to safeguarding. Central to such an approach are:

- (i) staff training so that staff know what to do if they have a concern about a child; and
- (ii) a planned curriculum and extra-curricular programme, including assemblies, which takes a preventative approach through the setting of values and standards and the promotion of the fundamental British values, notably in this context, of respect and tolerance. Through the wider curriculum, including Relationships Education and Personal, Social and Health Education, the school aims to provide pupils with an understanding appropriate to their age and stage of development of issues such as:

- healthy and respectful relationships;
- what respectful behaviour looks like;
- consent;
- gender roles, stereotyping, equality;
- body confidence and self-esteem;
- prejudiced behaviour;
- that sexual violence and sexual harassment are always wrong;
- addressing cultures of sexual harassment.

Sexual violence and sexual harassment can occur between two children or a group of children of any age and sex. They may be physical and/or verbal and may occur online and offline. Children who are victims will likely find the experience stressful and distressing and their educational attainment could be negatively affected. Sexual violence and sexual harassment are never acceptable, and the school will take all matters seriously and offer victims appropriate support. They will be considered as incidences of abuse and will not be tolerated. In particular, reports will not be allowed to be passed off, either by pupils or staff, as;

- banter;
- just having a laugh;
- part of growing up;
- boys being boys.

Research shows that it is more likely that girls will be the victims of sexual violence or harassment and more likely that boys are the perpetrators. Children with SEND are three times more likely to be abused than their peers. Further information is available in Part 1.4 of the DfE guidance, cited above. Such behaviour must be challenged, since it is normalised by being dismissed or tolerated.

Staff should recognise that children are capable of abusing their peers, and that not all children will find it easy to tell staff about their abuse verbally. Children can show signs or act in ways that they hope adults will notice and react to. It is essential that all victims are reassured that they are being taken seriously, regardless of how long it has taken them to come forward, and that they will be supported and kept safe. Victims will never be given the impression that they are creating a problem by reporting an incident and they will never be made to feel ashamed or their experience minimised.

Staff must act on the assumption that children may be experiencing sexual violence or harassment, even if there are no specific reports of such behaviour. Staff must ensure that they challenge any form of derogatory and sexualised language or behaviour. Staff should be vigilant to sexualised/aggressive touching/grabbing, particularly towards girls or other vulnerable groups of children. Belvedere Prep will prevent sexual harassment, online sexual abuse and sexual violence through a carefully planned and sequenced relationships, sex and health education curriculum alongside effective challenge and response to specific issues when they arise. All staff will reassure victims that they are being taken seriously and that they will be supported and kept safe.

All concerns must be reported and discussed with the Designated Safeguarding Lead, Deputy Designated Safeguarding Lead or senior member of staff. Behaviours can happen in school, online or in the community and are most likely to include, but not limited to:

- abuse within intimate personal relationships between peers;
- bullying (including cyber bullying, prejudice-based and discriminatory bullying);
- serious violence;
- sexual violence such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and/or encourages sexual violence);
- sexual harassment such as sexual comments, remarks, jokes and online sexual harassment which may be standalone or part of a broader pattern of abuse;
- causing someone to engage in sexual activity without consent;
- consensual and non-consensual sharing of nudes and semi-nude images or videos;
- up-skirting, which typically involves taking a picture under a person's clothing without their permission;
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; and

- sexting and initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and many also include an online element).

Children with special educational needs and disabilities are more vulnerable to sexual violence and harassment and staff should be aware that additional barriers can exist when recognising abuse in these children. Children who are LGBT+ or perceived to be, may also be targeted by their peers and harassed or assaulted.

Victims of peer-on-peer harm will be supported by the school's pastoral system and referred to specialist agencies including, for example, 'CAMHS'. A risk assessment may need to be in place. The school curriculum will support young people to become more resilient to inappropriate behaviours towards them, risk taking behaviours and behaviours that children may be coerced into including 'sexting' or 'initiation/hazing' behaviours.

Definitions: In this context, sexual violence is as defined in the Sexual Offences Act 2003. Sexual harassment is defined as unwanted conduct of a sexual nature that can occur online and offline. Sexual harassment is likely to:

- violate a child's dignity;
- make him or her feel intimidated, degraded or humiliated;
- create a hostile, offensive or sexualised environment.

Sexual harassment creates an atmosphere that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence. It can include:

- sexual comments, (such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names);
- sexual "jokes" or taunting;
- physical behaviour, (such as: deliberately brushing against someone, interfering with someone's clothes and displaying pictures, photos or drawings of a sexual nature;
- online sexual harassment, (which may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence). It may include:
 - non-consensual sharing of sexual images and videos*;
 - sexualised online bullying;
 - unwanted sexual comments and messages (including on social media);
 - sexual exploitation (coercion and threats).
- Upskirting; this is now a criminal offence, which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm.

* UK Council for Child Internet Safety (UKCCIS) sexting advice provides detailed advice for schools and colleges; (refer to links in Appendix 2).

Harmful sexual behaviour is a term used to describe behaviour which is beyond that which is normal and developmentally expected, and can be problematic, abusive or violent. It can occur online and/or

offline and should be considered in a child protection context. For further information, refer to the NSPCC guidance (see link in Appendix 2).

i) HANDLING A CONCERN

A pupil reporting sexual violence or sexual harassment will be offered support and every effort will be made to ensure that his or her education is not disrupted. Reports of sexual violence and sexual harassment are likely to be complex, requiring difficult professional decisions to be made, often quickly and under pressure. Staff are provided with training to facilitate a calm and considered response to any concern.

A member of staff who receives a report of sexual violence or sexual harassment will take action in line with the standard guidance for dealing with disclosures, as identified in this policy. As with all concerns about the welfare of a child, all staff should act in the best interests of the child. The child making the report will be reassured, supported, taken seriously and kept safe. He or she should never be given the impression that reporting causes a problem or be made to feel ashamed for making a report. In some cases, a third party, such as a friend, rather than the victim, may make the report. In such cases the same procedures will be followed, and it is important that the school understands why the victim has chosen not to make the report personally.

In overseeing the management of the concern, the DSL will consider, in line with overall safeguarding guidance, whether a referral should be made to children's social care and, where a crime may have been committed, will make a referral to the police.

The principles for handling a report of sexual violence or sexual harassment remain the same if the incident is alleged to have taken place off the school premises, or to have involved pupils from more than one school. In the latter case, appropriate information sharing, and effective multi-agency working are especially important.

If possible, a report will be managed with two members of staff present, (preferably one of them being the DSL or deputy). However, this might not always be possible. The DSL should be informed as soon as practically possible, if she is not involved in the initial report. If the report involves illegal images of children, it is a key consideration that staff should not view or forward such images. If viewing such an image is unavoidable, the UKCCIS advice (see link in Appendix 2) provides more details on what to do.

When there has been a report of sexual violence, the DSL or deputy should make an immediate risk and needs assessment. Where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis. The risk and needs assessment should consider:

- the victim, especially his or her protection and support;
- the alleged perpetrator;
- all the other children (and, if appropriate, adult students and staff) at the school.

The risk assessment will be recorded and kept under constant review. Full details of the matters for the DSL to consider in managing a report are given in paragraph 61 onwards of the DfE guidance cited above. In summary these are:

- the wishes of the victim in terms of how he or she wants to proceed;
- the nature of the alleged incidents;

- the ages and developmental stages of the children involved;
- any power imbalance between the children;
- whether the incident is a one-off or a sustained pattern of abuse;
- any ongoing risks to the victim;
- any other related issues and wider context.

The school may decide that the children involved do not require statutory interventions but may benefit from early help, as noted in the introduction to this policy, in which case, the process will be followed, as described in “Working Together to Safeguard Children”. In all situations, concerns, discussions, decisions, and reasons for decisions will be recorded, according to normal safeguarding procedures.

Supporting the victim; further guidance: Further information and useful links to additional documentation can be found at paragraph 66 of the DfE guidance.

Safeguarding and supporting the alleged perpetrator: Due consideration will be given to the support and safeguarding needs of the alleged perpetrator. Children abusing other children may be a sign they have been abused themselves or a sign of wider issues that require addressing within the culture of the school. The school will consider the balance of safeguarding the victim and providing the alleged perpetrator with an education, safeguarding support as appropriate and implementing any disciplinary sanctions. These will be considered on a case-by-case basis. A pupil against whom an allegation of abuse has been made may be suspended from the school during the investigation, as determined by the Headteacher in discussion with the DSL. Careful liaison with children’s social care and the police, as appropriate, will aim to ensure that any action taken by the school will not prejudice an investigation and/or any subsequent prosecution. It is also important to remember that, as a child, any alleged perpetrator is entitled to, deserving of, and should be provided with, a high level of support to help understand and overcome the reasons for such behaviour and help protect other children by limiting the likelihood of abusing again. The school will work with professionals as appropriate to provide support and to help alleged perpetrators understand and overcome the reasons for their behaviour and help protect other children by limiting the likelihood of them abusing again. Disciplinary action and appropriate support are not mutually exclusive; they can and should occur at the same time, where necessary. In addition to the procedures in this policy, the school’s policy on behaviour, discipline and sanctions will apply.

A bullying incident will be treated as a child protection concern when there is reasonable cause to suspect that a child is suffering, or likely to suffer significant harm.

J) WORKING WITH PARENTS

The school will, in most instances, engage with both the victim’s and the alleged perpetrator’s parents or carers when there has been a report of sexual violence, though this might not be necessary or proportional in the case of sexual harassment. This will be considered on a case-by-case basis. The exception to this requirement is if there is a reason to believe that informing a parent or carer will put a child at additional risk. Careful consideration, based, where appropriate, on advice from relevant agencies, will be given to what information is provided to the respective parents or carers about the other child involved and when this is provided. Further details on working with parents can be found in the DfE guidance, starting at paragraph 71.

Safeguarding other children: The school will consider carefully the safeguarding needs of other children, particularly any who may need support due to having witnessed sexual violence. Following an incident, it is likely that other children will 'take sides' and the school will be vigilant to do all it can to ensure that the victim, alleged perpetrator and any witnesses are not bullied or harassed, including via social media.

k) SUSPECTED HARM FROM OUTSIDE THE SCHOOL

A member of staff who suspects that a pupil is suffering harm from outside the school should seek information from the child with tact and sympathy using "open" and not leading questions (see TED questions, in a), above). A sufficient record should be made of the conversation and given to the DSL for child protection.

l) PUPILS WITH SEND

Children with SEND can face additional Safeguarding challenges and there may be additional barriers to recognising abuse and neglect in this group of children. This may include:

- Assumptions that indicators of possible abuse such as behaviour, mood or injury relate to the child's disability without further exploration;
- Children with SEND being disproportionately impacted by issues such as bullying without showing any outward signs;
- Children with SEND being unable to communicate instances of possible abuse.

The school's behaviour and anti-bullying policies make specific reference to dealing appropriately with SEND. Staff should be vigilant in relation to the bulleted points above, reporting any concerns to the DSL.

m) LOOKED AFTER AND PREVIOUSLY LOOKED AFTER CHILDREN

The most common reason for children becoming looked after is as a result of abuse and/or neglect. The school's Board ensures that staff have the skills, knowledge and understanding to keep looked after children and previously looked after children (since they remain vulnerable) safe. In particular, this involves ensuring that appropriate staff have the information they need in relation to a child's looked after legal status (whether they are looked after under voluntary arrangements with consent of parents or on an interim or full care order) and contact arrangements with birth parents or those with parental responsibility. Staff should also have information about the child's care arrangements and the levels of authority delegated to the carer by the authority looking after him/her. The DSL should have details of the child's social worker. When dealing with looked after children and previously looked after children, it is important that all agencies work together and prompt action is taken when necessary to safeguard these children.

Where there is a looked after, or previously looked after child at the school, a designated teacher will be appointed, who will work with local authorities to promote the educational achievement of such pupils. The school has appointed the Pastoral Leader as designated teacher for looked after children. She will also have responsibility for promoting the educational achievement of children who have left care through adoption, special guardianship or child arrangement orders or who were adopted from state care outside England and Wales. The school will provide appropriate training for such a role.

5. SUPPORTING THE PUPIL AT RISK

The school recognises that children who are abused or witness violence may find it difficult to develop a sense of self-worth and to view the world as benevolent and meaningful. They may feel helplessness, humiliation and some sense of self-blame. The school may be the only stable, secure and predictable element in the lives of children at risk. However, when at school their behaviour may be challenging and defiant and they may be withdrawn.

The school will endeavour to support the child through:

- The content of the curriculum to encourage self-esteem and self-motivation;
- The PSHE programme, through which pupils will, according to their age and stage of development, learn to develop a healthy, safer lifestyle by being able to:
 - Recognise and manage risks in different situations and then decide how to behave responsibly;
 - Judge what kind of physical contact is acceptable and unacceptable;
 - Recognise when pressure from others (including people they know) threatens their personal safety and well-being and develop effective ways of resisting pressure, including knowing when and where to get help;
 - Be assertive to help resist unhelpful pressure.
- The school ethos, which promotes a positive, supportive and secure environment and gives pupils a sense of being valued.
- The school behaviour policy, which is aimed at supporting vulnerable pupils in the school. The school will ensure that the pupil knows that some behaviour is unacceptable and that they are valued and not to be blamed for any abuse which has occurred.
- The PSHE programme, assemblies and other occasions, together with the watchfulness of staff and the training they receive, in respect of issues such as mental health, body image, eating disorders, female genital mutilation (FGM), self-harm and radicalisation. (refer also to Section 15)
- Liaison with other agencies who support the pupil such as Social Services, Child and Adult Mental Health Service, Education Welfare Service and Educational Psychology Service.
- Close monitoring of attendance, identifying patterns and concerns relating to children missing from school.
- The careful vetting of the visiting speakers to ensure that the content of what they intend to say is appropriate in relation to the school's ethos and fundamental British values.
- Drawing up a child protection plan, in consultation with other agencies, if appropriate, to identify strategies to assist a child.
- Keeping records and notifying the Safeguarding in Education Team or Social Care as appropriate, as soon as there is a recurrence of a concern.
- The appropriate transfer of information to the next school or setting when a pupil on the child protection register leaves the school. If the school does not know where the pupil has moved to, the LA Designated Officer will be contacted as soon as possible.
- The appropriate transfer of information to a new school or setting when a pupil leaves the school whenever the school has recorded child protection concerns.

- When required, the school will contribute to inter-agency working, as noted in the statutory guidance, Working Together to Safeguard Children 2018, providing, for example, an offer of help and/or by contributing towards an inter-agency assessment, in accordance with the Children Act 1989, to ensure a co-ordinated offer of early help when additional needs of children are identified.

The school will contribute to inter-agency plans to provide additional support to children subject to child protection plans and will allow access for Children’s Social Care from the host local authority and, where appropriate, from a placing local authority, for that authority to conduct, or to consider whether to conduct, a Section 17 or Section 47 assessment. For further information see KCSIE (September 2021), and Working Together to Safeguard Children July 2018; (see links in this policy in Appendix 2).

The school recognises the requirement, from October 2015, for teachers* to report to the police any cases or suspected cases of FGM. Nevertheless, all staff should liaise with the DSL with regard to any concerns about FGM (unless there is a reason not to do so). The police will be informed, and Children’s Social Care involved, as appropriate. At no time will staff examine pupils to confirm this.

Children at risk of Serious Violence and/or Child Criminal or Sexual Exploitation

All staff should be aware of the indicators which may suggest a child is at risk from or is involved with serious violent crime. These may include:

- Increased absence from school;
- A change in friendships or relationships with older individuals or groups;
- A significant decline in performance;
- Signs of self-harm or a significant change in wellbeing; or
- Signs of assault or unexplained injuries
- Unexplained gifts of new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.

All staff should be aware of the range of risk factors which increase the likelihood of involvement in serious violence, such as being male, having been frequently absent or permanently excluded from school, having experienced abuse or neglect and having been involved in offending such as theft or robbery. Additional advice can be found in the Home Office’s [Preventing youth violence and gang involvement](#) and [Criminal exploitation of children and vulnerable adults: county lines](#) guidance.

Both child sexual exploitation and child criminal exploitation are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victims needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. Child sexual exploitation and child criminal exploitation can affect children, both male and female, and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Staff will understand that whilst the age of the child may be a contributing factor for an imbalance of power, there are a range of other factors that could make a child more vulnerable to exploitation, including gender, sexual identity, cognitive ability, learning difficulties, communication ability, physical strength, status, and access to economic or other resources.

All staff should be aware of the indicators which may suggest a child is at risk from or experiencing child criminal or sexual exploitation. These may include:

- appearing with unexplained gifts, money or new possessions;
- associating with other children involved in exploitation;
- having been the victim or perpetrator of serious violence (e.g. knife crime);
- suffering from changes in emotional well-being;
- misusing drugs and alcohol;
- going missing for periods of time or regularly come home late and are found in areas away from their home;
- being found in accommodation that they have no connection with; and
- regularly missing school or education or do not take part in education.

All staff should be aware that children who are involved in criminal exploitation often commit crimes themselves, therefore their vulnerability as victims is not always recognised by adults and professionals. They may still have been exploited even if the activity appears to be something they have agreed or consented to. Staff should also have an understanding of the fact that the experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however professionals should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

All staff will be aware that child sexual exploitation is child sexual abuse. Exploitation of this nature can be a one-off occurrence and may happen without the child's immediate knowledge e.g., through the sharing of videos or images. It can also affect any child who has been coerced into engaging in sexual activities. Some children may not realise they are being exploited e.g., because they believe they are in a genuine relationship.

At Belvedere Prep, we understand that children who have been exploited or are at risk of serious violence, will need additional support to help maintain them in education.

Children requiring mental health support

Belvedere Prep recognises that it has an important role to play in supporting the mental health and wellbeing of our students. We also recognise that in some cases, mental health problems can be an indicator that a child has suffered, or is at risk of suffering abuse, neglect or exploitation. The DSL will regularly liaise with the senior mental health lead where safeguarding concerns are linked to mental health to ensure there is an effective and appropriate response by school. Within our school we adopt

a whole school approach to mental health and wellbeing, which includes promoting positive mental health, wellbeing and resilience across the whole school community.

Monitoring attendance

A child missing from an education setting is a potential indicator of abuse or neglect, including exploitation. Local Authority guidance and procedures will be followed for dealing with a child who is missing from education, particularly on repeated occasions or if a child suddenly stops attending. The school will follow the pan-Merseyside missing children protocol. For those children and families who have chronic poor attendance or persistent absenteeism, school will consider whether educational neglect is present and whether a referral to children's services is required, or whether the school should seek consent to begin an Early Help Assessment in order to coordinate a multi-agency plan of support for the child and family.

Attendance will be closely monitored. In line with the school's attendance policy, the attendance of children with known welfare and attendance concerns will be monitored closely, particularly those with chronic poor attendance or persistent absentees, or if a child suddenly stops attending. We will also scrutinise the attendance of off-site provision to ensure children are attending and are safe. Similarly, the attendance of children who are vulnerable or with known welfare and safeguarding concerns such as children who have a child protection plan, a child in need, are Children Looked After and/or SEN will be rigorously monitored on a daily and weekly basis. The child's social worker will be informed immediately when there are unexplained absences or attendance concerns.

It is important that the school's attendance team, including the school nurse and Safer Schools Officer, are aware of any safeguarding concerns. It is critical that when a child is not attending school their welfare is confirmed and expected practice would be for an appropriate professional to visit the home and speak to the child alone, particularly if there are any safeguarding concerns. The timing for this home visit will be determined on a case-by-case basis. The school will seek to ensure it has at least two emergency contacts for each family and consider what urgent action it may need to take when a vulnerable child and family are not contactable, and the child has not attended school. Where necessary, this may include reporting the child missing to the police. The school will ensure it is aware, in advance, of any difficulties in accessing the premises of a child's family home.

It is essential that all staff are alert to signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns such as travelling to conflict zones, Female Genital Mutilation and forced marriage.

Children Missing Education (C.M.E.) are children of compulsory school age who are not registered pupils at a school and are not receiving suitable education otherwise than at a school. All staff should be aware that children missing education are at significant risk of underachieving, being victims of harm, exploitation or radicalisation, and becoming NEET (not in education, employment or training) later in life. Children going missing can also be an indicator of mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation or risk of forced marriage. Effective information sharing between parents, schools and local authorities is critical to ensuring that all children of compulsory school age are safe and receiving suitable education. When a child is deemed to be missing from education, school will make reasonable enquiries to establish the whereabouts of the child jointly with the local authority, before deleting the pupil's name from the register. Once these enquiries have been undertaken, our school will follow the local protocol for Children Missing Education and make a C.M.E referral to the Local Authority Officer for C.M.E.

Some parents will decide to remove their child from the school role in order to educate them at home. For the majority of children, this choice will be with the child's best education at the heart of their decision, and it will be a positive learning experience. However, this is not the case for all, and home education can mean that some children become less visible to services who are there to keep them safe and supported in line with their individual needs. Where a parent or carer has expressed their intention to remove their child from the school roll with a view to educating at home, the school will work together with other key professionals and will, where possible, attempt to facilitate a meeting with the family to ensure that all parties have considered what is in the best interests of the child. This is particularly important for those children who have SEND, are vulnerable, and/or who have a social worker. The school will also link with the named officer for Elective Home Education within the Local Authority.

* "Teachers", here refers to anyone undertaking 'teaching work', as defined in The Teachers' Disciplinary (England) Regulations 2012, as explained in the ISI commentary on the regulations. This definition includes such persons as teaching assistants, sports coaches and visiting instrumental music staff.

6. A SAFE ENVIRONMENT

The school recognises the need to provide a safe environment in which children can learn and develop.

To facilitate this, the school will:

- Assess school activities and all areas of the school for risk and keep records;
- Ensure appropriate security at all points of access to the premises;
- Not lock internal doors in areas being used by pupils;
- Fit, where possible, glass panels into the doors of classrooms, music practice rooms and other appropriate areas;
- Ensure that all visitors to the school are required to sign in at Reception on arrival. Visitors will be required to wear their identity badges or be issued with school visitor badges upon verification of their identity;
- Ensure that staff are vigilant and will either report unidentified visitors immediately to the school office or challenge the person directly if safe to do so. At times when the office is closed, staff should alert the Headteacher or other senior staff on duty;
- Be aware that there are occasionally times when large numbers of unknown visitors may be on site (e.g. fixtures, open mornings, plays or concerts). On these occasions, it is not expected that all these visitors will wear badges and only visitors found in areas inappropriate to the event or whose behaviour causes concern will be reported or challenged.

7. THE DSL

The school has appointed an experienced and suitably qualified member of staff who is the member of the Senior Leadership Team as DSL to be responsible for matters relating to child protection and

welfare and a DDSL with similar training, to act in their absence and take the lead should an allegation be made against the DSL.

The DSL and deputy develop a complete safeguarding picture and are the most appropriate people to advise on the response to safeguarding concerns. The responsibilities of the DSL and DDSLs are provided in job descriptions specific to this aspect of their school role.

They include:

- Being conversant with LASCB procedures and the role of other agencies;
- Following the school's Safeguarding & Child Protection Policies and co-ordinating child protection procedures in the school;
- Being the first point of contact for parents, pupils, teaching and non-teaching staff and external agencies in all matters of child protection;
- Consulting with the Safeguarding in Education Team or Social Care, or LADO, as appropriate, on issues if an allegation or suspicion occurs and liaising with the various child protection agencies where appropriate;
- Keeping the Headteacher informed of all actions unless the Headteacher is the subject of a complaint. In this situation, the DSL should consult with the Safeguarding Board Member or proprietor;
- Co-operating with any police and LADO investigations;
- Liaising with the Headteacher and Safeguarding Board Member regarding training for all who work at the school on child protection issues;
- Attending appropriate higher-level training every two years supplemented by informal updates as required, but at least annually;
- Undertaking training to facilitate the recognition of the additional risks that children with SEND face online, for example, from online bullying, grooming and radicalisation and ensure confidence in the capability to support SEND children to stay safe online";
- Keeping appropriate records, sharing these with agencies as and when appropriate. Data protection considerations must not be a barrier to sharing information where the failure to do so would result in a child being placed at risk of harm;
- Supporting staff;
- Having a role in the oversight of the school's e-safety provision, the teaching of online safety and the quality of the school's filtering and monitoring;
- Taking responsibility, when a child leaves the school, for ensuring that the child protection file is transferred securely to the new school within 5 working days and obtaining confirmation of receipt. Such a transfer of information should be separate from the main pupil file. In addition to the child protection file, the DSL should also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives. As a recipient of a child protection file from a previous school, the DSL must ensure that key staff, including the SENCO, are made aware as required;

- Liaising with staff (especially pastoral support staff, school nurse, and SENCOs on matters of safety and safeguarding (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies so that children's needs are considered holistically;
- Liaising with the school's senior mental health lead and where available, the Mental Health Support Team, where safeguarding concerns are linked to mental health;
- Promoting supportive engagement with parents and/or carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances;
- Working with the headteacher and relevant strategic leads, taking lead responsibility for promoting educational outcomes by knowing the welfare, safeguarding and child protection issues that children in need are experiencing, or have experienced, and identifying the impact that these issues might be having on children's attendance, engagement and achievement at school or college. This includes:
 - ensuring that the school or college knows who its cohort of children who have or have had a social worker are, understanding their academic progress and attainment, and maintaining a culture of high aspirations for this cohort; and,
 - supporting teaching staff to provide additional academic support or reasonable adjustments to help children who have or have had a social worker reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children's educational outcomes.

In addition to the role outlined in Keeping Children Safe the Designated Safeguarding Lead is also expected to ensure that:

- The social worker is notified if a child subject to a child protection plan is absent without explanation;
- The social worker is informed when a child subject to a child protection plan or a child in need plan moves to a new setting;
- A training log is kept of all child protection training include the names of those attending. All staff must have regular training and updates;
- Child protection records are kept securely and separately from the child's normal file. Records will be transferred and/or retained in keeping with the Local Authority's and NSPCC guidance;
- The school attends and contributes to child protection case conferences and child in need meetings, ensuring actions are completed in a timely manner. The school will complete the LSCP agency report ahead of each child protection conference;
- The school escalates its concerns with other agencies when a child's needs are not being met following the Local Safeguarding Children Partnership Escalation and Resolution Policy;
- All members of the safeguarding team have received appropriate training; that all referrals made are quality assured and that regular safeguarding supervision is provided to the safeguarding team to monitor all decisions and actions taken alongside the well-being of each team member;
- All staff read and understand part 1 and Annex B of the DfE (2021) guidance Keeping Children Safe in Education and make available to them other key documents and guidance.

8. HELPING A CHILD WHO WANTS TO TELL YOU ABOUT ABUSE

Staff should remember that the priority is to protect the child:

- Take the matter seriously;
- React calmly and listen carefully;
- Observe but do not judge;
- Don't stop the child who is freely recalling significant events;
- Reassure the child that he or she has done the right thing in telling you;
- Indicate the action you will take and make it clear that you will have to tell the DSL (you cannot promise confidentiality - no secrets);
- If the child comes back to talk at a later stage, don't comment or advise; ensure that you listen, record and reassure the child.

As a member of staff, it is essential to remember not to:

- Drag the child to the DSL – this could be interpreted as abusive in itself;
- Contact the parents yourself;
- Interrogate the child or ask leading questions;
- Speak to anyone about whom allegations are made, including colleagues;
- Promise confidentiality;
- Ask a child outright if he or she or others have suffered abuse;
- Criticise the alleged perpetrator.

9. TEN KEY POINTS TO FOLLOW IF YOU SUSPECT, OR ARE TOLD OF, ABUSE:

The following guidelines, compiled by Dr Roger Morgan OBE (former Children's Rights Director), may be helpful:

Adults looking after children or young people in schools (or in residential establishments or youth organisations) should be aware of the risks of abuse (by adults or other young people), and take steps to reduce those risks. Adults (staff or volunteers) in charge of children or young people should know what to do if they suspect that someone is being abused, or if someone tells them that this is happening. The following key points give a guide on what to do and not to do:

1. Always stop and listen straight away to someone who wants to tell you about incidents or suspicions of abuse;
2. If you can, write brief notes of what they are telling you while they are speaking (these may help later if you have to remember exactly what was said) – and keep your original notes, however rough and even if you wrote on the back of something else, (it's what you wrote at the time that may be important later – not a tidier and improved version you wrote up afterwards). If you don't have the means to write at the time, make notes of what was said as soon as possible afterwards;
3. Do not give a guarantee that you will keep what is said confidential or secret – if you are told about abuse, you have the responsibility to tell the right people to get something done about it (see below).

If asked, explain that you are going to tell the people who can provide help, but that you will only tell people who absolutely have to know;

4. Don't ask leading questions that might give your own ideas of what might have happened (e.g. "did he do X to you?") – just ask "what do you want to tell me?" or "is there anything else you want to say". Refer to the TED questions in 4(a) above;

5. Immediately tell the DSL (unless they are themselves accused or suspected of abusing, in which case this must be reported to the Headteacher) – don't tell other adults or young people what you have been told;

6. Discuss with the DSL whether any steps need to be taken to protect the person who has told you about the abuse (this may need to be discussed with the person who told you);

7. Never attempt to carry out an investigation of suspected or alleged abuse by interviewing people etc. – social services and police staff are the people trained to do this – you could cause more damage and spoil possible criminal proceedings;

8. As soon as possible the DSL should refer the matter to the local social services department (helped by your notes). Follow their requests about what to do next. They will set up any necessary investigations, and can advise you;

9. Never think abuse is impossible in your school or group, or that an accusation against someone you know well and trust is bound to be wrong;

10. Children and young people often tell other young people, rather than staff or other adults, about abuse – make sure that senior young people know how to behave if they suspect or are told of abuse.

10. SAFE WORKING PRACTICE within the CODE OF CONDUCT FOR STAFF

Staff, volunteers and helpers need to think and act carefully to avoid situations that could lead to difficulties or embarrassment or accusations. The following points are intended to provide some guidance:

- All who work with children must ensure that the children feel equally valued; favouritism, real or inferred, causes feelings of alienation and can be misconstrued;
- Staff who have concerns about the conduct of others, in respect of their engagement with children, should have the confidence that they are safe to raise their concerns and their view will be taken seriously. Staff should refer to and follow the procedures detailed in the whistleblowing policy, found in the employment manual;
- Staff should not take children out on their own and refrain from forming personal relationships exclusively with one individual;
- Staff should take care that any electronic communication with pupils is wholly appropriate, does not constitute a breach of trust and is in accordance with E-safety guidance included in Section 11 of this policy. Staff must not befriend pupils on social networking sites;
- Conversations and behaviour should be friendly but not over familiar. Young people are more comfortable with an adult in role than an adult who seeks to be 'one of the gang';
- Responsible and appropriate use of authority provides stability and security;

- All children should be treated with dignity and respect in attitude, language use and actions;
- Respect the privacy of the children;
- Avoid questionable activity e.g. rough, sexually provocative games and comments;
- Ensure that correct safeguards are in place to cover 'one to one' situations. This may include individual coaching, instrumental music tuition, administering of first aid, nappy changing, conveying pupils by car etc. One to one situations have the potential to make a child more vulnerable to harm by those who seek to exploit their position of trust. Adults working in one to one settings with pupils may also be more vulnerable to unjust or unfounded allegations being made against them;
- Make sure that the only people allowed into an activity are the adults assigned to the group. You should not allow others to have free access unless they have a specific reason e.g. guest speaker, maintenance person;
- Physical contact should reflect the child's need not the adult's;
- Physical contact should be age appropriate and generally initiated by the child not the adult;
- Physical contact should take place only in public;
- Children have the right to decide how much physical contact they have with others, except in exceptional circumstances when they need medical attention;
- Any act of restraint involving physical contact must be recorded in writing and the Headteacher notified immediately. The Headteacher will notify parents on the same day, or as soon as practicable thereafter. In the event the Headteacher is involved this should be passed to the Safeguarding Board Member or Proprietor. A record of such incidents will be kept;
- Physical contact must be in accordance with the school policy on reasonable force and physical restraint, further details of this can be found in Section 14 of this policy, below;
- Staff should monitor one another in the area of physical contact. They should be free to help each other by pointing out anything that could be misunderstood.

More detailed information is available to all staff through the document 'Guidance for safer working practice for adults who work with children and young people', (see Appendix 2) The guidance identifies many key areas where adults can protect themselves from allegations.

11. E-SAFETY POLICY

The Belvedere Preparatory School and EYFS

The Belvedere Preparatory School believes in the educational benefits of curriculum Internet use. Good planning and management that recognises the risks will help to ensure appropriate, effective and safe pupil use. In delivering the curriculum, teachers need to plan to integrate the use of communications technology such as web-based resources and e-mail in order to enable pupils to learn how to locate, retrieve and exchange information using ICT. Computer skills are vital to access lifelong learning and for future employment.

Most technologies present risks as well as benefits. Internet use for home, social and leisure activities is expanding and being used by all sectors of society. This brings young people into contact with a wide

variety of influences, some of which could be unsuitable. It is important that schools, as well as parents, adopt strategies for the responsible and safe use of the Internet.

Core Principles of Internet Safety:

The Internet has become as commonplace as the mobile phone or TV and its effective use is an essential life-skill. Unmediated Internet access brings with it the possibility placing of pupils in embarrassing, inappropriate and even dangerous situations. This policy aims to help to ensure responsible use and the safety of pupils. It is built on the following five core principles:

Guided educational use

Significant educational benefits should result from curriculum Internet use including access to information from around the world and the ability to communicate widely and to publish easily. Internet use should be planned, task-orientated and educational within a regulated and managed environment. Directed and successful Internet use will also reduce the opportunities for activities of dubious worth.

Staff are guided that, in relation to the age and maturity of the pupils (particularly, therefore, at prep level), when setting a task, such as homework, which involves internet research, this must not simply be an open-ended request (such as 'find out six facts about Henry VIII'). Instead, staff will research suitable and safe websites where pupils can undertake their research and will provide the pupils with a selection of website addresses. Where possible, these are provided electronically as hyperlinks, to be sure that pupils are taken to the correct destination.

Risk assessment

21st Century life presents dangers including violence, racism and exploitation from which children and young people need to be protected. At the same time they need to learn to recognise and avoid these risks – to become "Internet Wise". Pupils need to know how to cope if they come across inappropriate material.

Responsibility

Internet safety depends on staff, schools, Board Members, advisers, parents and, where appropriate, the pupils themselves taking responsibility for the use of Internet and associated communication technologies. The balance between education for responsible use, regulation and technical solutions must be judged carefully.

It is acknowledged that, whilst the school provides pupils with a protected environment for Internet usage in school, the pupils may not benefit from the same level of protection in their access to the Internet beyond the confines of the school. Important aspects of the school's e-safety provision are, therefore, the development of the pupils' understanding of keeping safe online when not at school and supporting parents in understanding how to help keep their children safe online.

The Headteacher, DSL and DDSs are responsible for ensuring, so far as is reasonably practicable, a safe environment for internet use, for the implementation of policy and for the development of the pupils' understanding of how to keep themselves safe online, both in and out of school.

The ICT Technician (Aabyss) is responsible for the maintenance of hardware and software systems and technology to ensure, so far as is reasonably practical, safe use of the internet.

The IT co-ordinator is responsible for overseeing the successful development, both in IT lessons and the wider curriculum and extra-curricular activities, of pupils' understanding of how to keep safe online and for supporting staff in implementing this objective.

All staff and volunteers are responsible for monitoring pupils' safety online and reporting any concerns arising from pupils' internet use, either at school or at home, and for supporting the development of the pupils' understanding of how to keep themselves safe online.

Regulation

The use of a limited and expensive resource, which brings with it the possibility of misuse, must be regulated. In some cases access within school is denied, for instance unmoderated chat rooms present immediate dangers and are banned. Fair rules, clarified by discussion and prominently displayed help pupils make responsible decisions for both school and home access.

Appropriate strategies

This document describes strategies to help to ensure responsible and safe use. They are based on limiting access, developing responsibility and on guiding pupils towards educational activities. There are no straightforward or totally effective solutions and staff, parents and the pupils themselves must remain vigilant.

1) The Importance of Internet Use

- The purpose of Internet use in school is to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school's management information and business administration systems.
- Internet use is a part of the statutory curriculum and a necessary tool for staff and pupils.
- The Internet is an essential element in 21st Century life for education, business and interaction.

The school has a duty to provide students with quality Internet access as part of their learning experience.

2) How the Internet benefits education

Benefits of using the Internet in education include:

- access to world-wide educational resources including museums and art galleries;
- educational and cultural exchanges between pupils world-wide;
- cultural, vocational, social and leisure use in libraries, clubs and at home;
- access to experts in many fields for pupils and staff;
- staff professional development through access to national developments, educational materials and good curriculum practice;
- communication with support services, professional associations and colleagues;
- improved access to technical support including remote management of networks.

3) How Internet use enhances learning

- The school Internet access is designed expressly for pupil use and will include filtering appropriate to the age of pupils.
- Pupils will be taught what is acceptable and what is not acceptable and given clear objectives for Internet use.
- Internet access will be planned to enrich and extend learning activities. Access levels will be reviewed to reflect the curriculum requirements and age of pupils.
- Staff will guide pupils in on-line activities that will support the learning outcomes planned for the pupils' age and maturity.
- Pupils will be educated in the effective use of the Internet in research, including the skills of knowledge location and retrieval.

4) Pupil's Understanding of how to keep safe online

The school develops the pupils' understanding of how to keep safe online, as part of a broad and balanced curriculum, and their resilience in protecting themselves and their peers in the following ways:

- Assemblies;
- Themed weeks;
- Visiting speakers;
- School council promotions;
- Classroom PSHE lessons.

5) Pupils' Evaluation of Internet content

Inappropriate material should not be visible to pupils using the Web. This is not easy to achieve and cannot be guaranteed. It is a sad fact that pupils may be confronted with inappropriate material, despite all attempts at filtering. Pupils will be taught what to do if they experience material that they find distasteful, uncomfortable or threatening. For example, to close the page and report the URL to the teacher or IT coordinator for inclusion in the list of blocked sites. More often, pupils will be judging reasonable material but selecting that which is relevant to their needs, for instance to answer a homework question. Pupils should be taught research techniques including the use of subject catalogues and search engines. They will be encouraged to question the validity, currency and origins of information – key information handling skills. They should also use alternative sources of information for comparison purposes. Effective guided use will reduce the opportunity pupils have for exploring unsavoury areas. Using Internet derived materials in pupils' own work requires at least an understanding that straight copying is worth little without a commentary that demonstrates the selectivity used and evaluates significance. Respect for copyright and intellectual property rights, and the correct usage of published material needs to be taught.

- If staff or pupils discover unsuitable sites, the URL (address) and content must be reported to the Internet Service Provider via the IT co-ordinator.
- The use of Internet derived materials by staff and by pupils in school must comply with copyright law.

- Pupils are taught to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.
- Pupils will be taught to acknowledge the source of information and to respect copyright when using Internet material in their own work.

6) Management of e-mail

- Pupils may use only approved e-mail accounts on the school system.
- Pupils must immediately tell a teacher if they receive offensive e-mail.
- Pupils must not reveal details of themselves or others, such as address or telephone number, or arrange to meet anyone in e-mail communication.
- Access in school to external personal e-mail accounts is not allowed except where a teacher has specifically requested it for example to retrieve a piece of work emailed from home.

7) Management of Website content

- The point of contact on the Website is the school address/school e-mail and telephone number.
- Staff or pupils' home information will not be published.
- Website photographs that include pupils will be selected carefully and will not enable individual pupils to be identified.
- Pupils' full names will not be used anywhere on the Website, particularly associated with photographs.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school Website.
- The copyright of all material must be held by the school, or be attributed to the owner where permission to reproduce has been obtained.
- The school undertakes appropriate measures for the management of personal data which is stored electronically.

8) Newsgroups and chat

- Pupils will not be allowed access to public or unregulated chat rooms in school.
- Newsgroups will not be made available unless an educational requirement for their use has been demonstrated.
- A risk assessment will be carried out before pupils are allowed to use a new technology in school.

9) Management of emerging Internet uses

- Emerging technologies will be examined for educational benefit and a risk assessment will be carried out before use in school is allowed.

10) Authorisation for Internet access

- At EYFS and Key Stage 1, access to the Internet will be by adult demonstration and with directly supervised access to specific, approved on-line materials.

11) Liaison and partnership with parents

- Parents have access to the school's e-safety policy on the school website and can request a paper copy from the school office.
- Parents will be informed that pupils will be provided with supervised Internet access.
- Parents and pupils will be asked to sign and return a consent form.
- Periodically the school runs e-safety information meetings for parents, which may involve an external speaker, in order to raise their awareness of e-safety matters and help them develop their children's safe use of the Internet.
- Copies of template agreements for children and parents are found in Appendix 3 of this policy.

12) Assessing the risks of Internet Use and Management of filtering

- In common with other media such as magazines, books and video, some material available via the Internet is unsuitable for pupils. The school will take all reasonable precautions to ensure that users access only appropriate material. However, due to the international scale and linked nature of Internet content, it is not possible to guarantee that unsuitable material will never appear on a school computer.
- Methods to identify, assess and minimise risks will be reviewed regularly.
- The Headteacher will ensure that the Internet policy is implemented and compliance with the policy monitored.
- The school will work in partnership with parents, the DfE and our Internet Service Provider to ensure systems to protect pupils are reviewed and improved.
- The school will ensure that appropriate IT filters and monitoring procedures are in place to safeguard children from potentially harmful and inappropriate material online without unreasonable 'overblocking'.
- As part of the above the school should consider carefully how to manage the access to 3G and 4G on the school premises.

13) Introduction of the policy to pupils

- Rules for Internet access will be posted near all computer systems.
- Pupils will be informed that Internet use will be monitored.
- Instruction in responsible and safe use should precede Internet access.

14) Staff consultation and training

- The school will ensure that all staff have undertaken appropriate e-safety training.
- All staff must have familiarised themselves fully with this policy before using any Internet resource in school.
- All staff, including teachers, supply staff, classroom assistants and support staff, will be provided with the School Internet Policy, and its importance explained.

- Staff development in the safe and responsible Internet use, and on school Internet policy will be provided as required. Induction training in safeguarding for new staff includes e-safety.
- Annual Training with local provider, Safechildren Ltd.
- Online Channel Training.

15) Technical provision, filters, safeguards and monitoring Web protection is used through filtering systems that are checked regularly by the IT Coordinator and the technician. A report is completed, signed and check by the Head or Deputy Head. All computers used have filters that are using a filtering system.

16) Maintenance of ICT system security

- The school ICT systems will be reviewed regularly with regard to security in conjunction with the Head and Deputy Head, and Aabyss.
- Virus protection will be installed and updated regularly by Aabyss.
- Memory sticks are not permitted in school.
- Unapproved system utilities and executable files will not be allowed in pupils' work areas or attached to e-mail.
- Where children are asked to learn online at home (e.g., under the Provision of Remote Education Continuity Direction (October 2020)), our school ensures this is done safely by referencing key guidance such as [safeguarding in schools colleges and other providers](#), [safeguarding and remote education](#).

12. MOBILE PHONES AND CAMERAS POLICY

1. Use of Cameras and the manipulation and storage of images

In this policy terms such as 'photography', 'pictures', 'images', 'camera', 'device' and 'digital technology' include both still and video media. The term 'camera' includes mobile phones, iPads and other equipment which has the capacity to take photographs.

At The Belvedere Preparatory School we recognise that the appropriate use of photography enhances many aspects of school life and the pupils' education. Mobile phone technology has become more sophisticated over recent years and will continue to evolve. Wireless connections in particular, extend the capabilities of mobile phones further; which allow access to new content and services, such as the internet, social networking sites and instant messaging. Many mobile phones offer camera, video and audio recording as standard. Mobile phones, alongside other technologies aim to change the way we communicate. This speed of communication often provides security and reassurance; however, as with any other form of technology, there are associated risks.

This policy is intended to ensure an environment in which children, parents and staff are safe from images being recorded and inappropriately used by providing a clear framework to ensure that:

- the use of cameras and the storage of images reflect good practice;
- the safeguarding needs of the pupils are met;
- staff are not distracted from their work with children.

The policy also recognises that learning to use digital technology is an important part of the IT curriculum. Teaching needs to ensure that pupils are able to learn how to use digital cameras and to edit and store photographs with an understanding of safeguarding requirements, for themselves and others, which is appropriate for their age and taking due account of the cyber-bullying aspects of the school's anti-bullying policy. Reference should also be made to the school's E-Safety Policy (see Section 12 above) policy and planning for the internet safety topic in the IT/PSHE scheme of work.

Photography is used at the school for a variety of purposes, including:

- Recording pupils' achievements, learning and progress;
- Contributing to each pupil's development file/profile/evidence portfolio;
- Providing evidence to support pupils' application for entrance/scholarship to their future schools;
- Recording school events and providing material for displays;
- Communication with parents, for example to help reassure new parents or carers of young children that they have settled well into school life and provide prompt information on their children's activities on residential trips;
- For publicity purposes (brochures, prospectus, media articles, website etc.) for the school;
- To support work undertaken by members of staff or students on placements for training and gaining further qualifications.

On their child's admission to the school, parents are asked to sign a consent form in relation to their child being photographed at school or during school events. The form provides for parents to give permission at different levels (for example to consent to their child being photographed to record achievement and progress, but not for publicity purposes. The form also gives parents the opportunity to state whether a child in a photograph can be named. A copy of the consent form can be found at Appendix 4.

Responses to the photography consent form are collated and the summary/analysis can be consulted at the school office/in the staff handbook/on the school's management information system. It is important that staff familiarise themselves with this information. If parents withhold consent for certain aspects of photography in relation to their child, this must be respected. Images should be checked to determine whether photographs have been taken which inadvertently include pupils for whom consent has not been given. If this is the case, images should be destroyed, cropped or otherwise edited to ensure that parental consent is respected. If an image is edited for this reason, the original must be destroyed.

Periodically, professional photographers visit the school by arrangement to take portrait photographs and formal pictures of sports teams etc. Care should be taken that parental consent is respected and also that parents have not unintentionally withheld consent regarding such photographs. Any areas of doubt should be discussed with the Headteacher, who will arrange for parents to be contacted as appropriate. It is not compulsory for pupils to be included in portrait and team photography, nor is there any obligation on parents to purchase the resulting photographs.

From time to time a teacher, student or trainee teacher on placement may undertake a case study of a child, for example, as part of a training course to gain a qualification. In such situations, parental consent with regard to photography must be respected. Case studies will only be undertaken following prior written consent from the parent or carer and, except by prior arrangement between the

Headteacher and the parent/carer, the child's name will be changed in the case study to protect his or her identity.

Occasionally a photograph may be taken which inadvertently catches a pupil in an unfortunate, embarrassing or compromising position. If this is the case, the image and any copies of it must be destroyed immediately.

Photography by parents

It is very difficult to police the use of cameras by parents, for example at prize-giving or on the touchline at sports fixtures. However, if members of staff have concerns about the suitability of photography by parents, they should consult DSL and/or the Headteacher, who will consider the situation with reference to this policy and the school's safeguarding procedures and take appropriate action. Concerns will be taken seriously, logged and investigated appropriately.

Any parent who works at the school, for example as a volunteer, must abide by this policy. The teacher responsible (for example the Trip Leader for an educational visit which uses parent volunteers) must ensure that the parents involved are aware of this policy and abide by it.

If parents wish to make a video recording of a school event (nativity, concert, drama production etc.), prior permission must be obtained from the Headteacher, who will consider the situation with respect to this policy and the levels of consent given by parents of other children involved. Since it is difficult to ensure that parental consent is respected in these situations, and not appropriate to share the details of consent given for particular children with other parents, the Headteacher may refuse permission for a video recording of the event to be made. As an alternative, the school may make an official video recording/DVD, the editing of which, before it is made available to parents, will ensure that parental consent is respected.

Use of equipment

Except with specific permission from the Headteacher, staff may not use their own cameras, phones or other equipment to take pictures in school or at school events. A school camera is available for each year group in the school for this purpose. Please ensure that batteries are recharged as appropriate for the next user. Users bringing personal devices in to the school must ensure there is no inappropriate or illegal content on the device. Staff must ensure that this policy is observed when using other equipment which can be used in connection with photographs (photocopier, scanner, printer, iPads, etc.)

Editing and storage of photographs

All images taken by members of staff or volunteers at school or on school activities remain the property of the school. The school may require images to be deleted or edited as appropriate and may also select images taken by members of staff or volunteers for other purposes, with due attention paid to the requirements of this policy.

When editing images, staff must take due professional care and ensure that edited images do not mislead or misrepresent. Care must also be taken to ensure that images do not result in their subject being vulnerable to embarrassment, teasing, bullying or abuse.

Close attention must be paid to the storage of images, particularly whilst kept on portable media such as flash cards. Staff are responsible for the security of such media and the images they contain and must take all reasonable measures to ensure that they are kept safe and do not come into the possession of unauthorised people.

Images must not be stored permanently on personal devices or storage media. Members of staff may transfer images to personal equipment for the purposes of sorting and editing but they must be transferred into the school's photograph archive and deleted from personal equipment at the earliest opportunity.

All images must be stored permanently only in the school's photograph archive on the school intranet (except where they form part of other approved school documentation, such as a record of achievement, display, brochure or official website), where they will be monitored by the DSL and Headteacher. Once sorted and edited, images must be transferred to the archive and deleted from other personal and school equipment and temporary storage media.

To maintain security and enable subsequent users to work effectively, images on flash cards and other portable media must be deleted once they have been transferred. Similarly, where cameras have the capacity to save images without the need for a removable card, these must be deleted after use.

Unless specific prior consent has been obtained, members of staff and volunteers must not post school images on personal pages of social networking sites or other websites. The use of images on the school's official Facebook page, website and other approved sites is carefully monitored by the DSL to ensure that it is in line with this policy and parental consent. The age limit for having a Facebook account is 13 and other social networks have similar restrictions. However, parents do not always enforce these restrictions. Staff must be vigilant in respect of any inappropriate use by pupils of school images or their own photographs of school events on social networks and must report any concerns to the DSL.

The DSL is responsible for liaising with the chair of the parents' association (Guild of Friends) to ensure familiarity with this policy and that images used on the association's Facebook page and in newsletters and other literature and media abide by this policy and respect the levels of consent given by parents in respect of photography.

Final responsibility for the appropriate use of photography at school and in connection with school events rests with the Headteacher and the DSL. They monitor school images and may require an image to be deleted, edited or removed from a particular document, website etc. in accordance with the requirements of this policy.

The school assesses the risk of access to archived images by inappropriate individuals to be very low. Staff and volunteers must ensure that their use and storage of images maintains a similarly acceptable level of risk.

2. Use of mobile phones by members of staff and by volunteers in school

Mobile phones provide many benefits to school life, notably in improving health and safety through better communication with staff in more remote parts of the school site and on off-site visits. However, mobile phones, particularly those capable of taking pictures, also present a challenge to the school community to ensure that pupils are safeguarded in relation to the potential for improper use and also that their education is not impeded by the use of mobile phones at inappropriate times.

The school provides information on the use of mobile phones by pupils. Staff must be vigilant to ensure that the use of mobile phones, including their use by volunteers, visitors and pupils is always appropriate and that the safeguarding needs of the pupils are met. Any concerns should be discussed with the Headteacher or DSL. Concerns will be taken seriously, logged and investigated appropriately.

Where a member of staff, visitor, volunteer or pupil has a mobile phone with the facility to take pictures, its use is subject to the policy on the use of cameras and the manipulation and storage of images, above.

- On arrival at school staff should switch their phones off to ensure that they do not adversely affect their duties at school and the pupils' education.
- In cases of emergency (for example a seriously ill relative) mobile phones should be left in the office, office staff should be alerted and the phone can be left switched on so that a message can be relayed.
- Staff may use their phone at break times and lunch time provided that (i) pupils are not present, (ii) they are not on duty and (iii) this does not prevent them from responding to a request for assistance from another member of staff or other aspects of their professional duties.
- The school lead first aider, site manager and Headteacher are exempt from the restrictions on the use of mobile phones whilst on duty so that they can be contacted at all times by the school office in case of emergency.
- By arrangement with the headteacher, a member of staff's personal mobile phone may be designated as the means of communication for specific activities. In such situations, it is expected that this policy will be observed in respect of personal use. The cost of calls made on school business will be reimbursed, provided that they can be identified on an itemised bill or otherwise.
- The use of mobile phones by staff whilst on school duties must respect national legislation and common courtesies. For example, they must not be used whilst driving and should be switched to silent at events and venues where this is expected.
- The school assesses the risk to pupils through the improper use of mobile phones to be very low. Staff and volunteers must ensure that their use of mobiles phones maintains this level of risk.

13. USE OF REASONABLE FORCE AND PHYSICAL RESTRAINT; ACCEPTABLE PHYSICAL CONTACT

1. The Legal Framework

Physical Restraint should be limited to emergency situations and used only in the last resort. Under the Children Order 1995, it is only permissible as described under the heading "Physical Control".

Article 4 of the Education Order 1998 clarifies powers that already exist in common law. It enables teachers and other members of staff in the school, authorised by the Headteacher, to use such force as is reasonable in the circumstances, to prevent a pupil from:

- Committing an offence;
- Causing personal injury to, or damage to the property of, any person (including the pupil himself);
- Engaging in any behaviour prejudicial to the maintenance of good order and discipline at the school or among its pupils, whether during a teaching session or otherwise. (Examples of possible situations are given in Section 6)

This policy draws on 'Use of reasonable force; Advice for head teachers, staff and governing bodies' published by the DfE in July 2013 and KCSIE 2021.

2:1 Definition of restraint at The Belvedere Preparatory School

Physical restraint is the positive application of force with the intention of protecting the child from harming himself or others or seriously damaging property.

2:2 General policy aims

Staff at The Belvedere Preparatory School recognise that the use of reasonable force is only one of the last in a range of strategies available to secure pupil safety/well-being and also to maintain good order and discipline. Our policy on restraint should therefore be read in conjunction with our Behaviour and Child Protection policies.

2:3 Specific aims of the restraint policy

- To protect every person in the school community from harm.
- To protect all pupils against any form of physical intervention that is unnecessary, inappropriate, excessive or harmful.
- To provide adequate information and training for staff so that they are clear as to what constitutes appropriate behaviour and to deal effectively with violent or potentially violent situations.

3. Why use restraint?

Physical restraint should avert danger by preventing or deflecting a child's action or perhaps by removing a physical object, which could be used to harm him/herself or others. It is only likely to be needed if a child appears to be unable to exercise self-control of emotions and behaviour. It is not possible to define every circumstance in which physical restraint would be necessary or appropriate and staff will have to exercise their own judgement in situations which arise within the above categories. Staff should always act within the School's policy on behaviour and discipline, particularly in dealing with disruptive behaviour.

Staff should be aware that when they are in charge of children during the school day, or during other supervised activities, they are acting in loco parentis and should, therefore, take reasonable action to ensure pupils' safety and well-being. Failure to physically restrain a pupil who is subsequently injured or injures another, could, in certain circumstances, lead to an accusation of negligence. At the same time, staff are not expected to place themselves in situations where they are likely to suffer injury as a result of their intervention.

The school does not have a "no-contact" approach to pupil management, since this may leave staff unable to protect pupils. This section on reasonable force and physical restraint should, therefore, be read in connection with the section on physical contact, below. It is the intention of these policies to allow and support staff to make appropriate physical contact.

3.1 Alternative strategies

There are some situations in which the need for physical restraint is immediate and where there are no equally effective alternatives (e.g. is a pupil is about to run across a road). However, in many circumstances there are alternatives e.g. use of assertiveness skills such as:

- the broken record in which an instruction is repeated until the pupil complies;
- use of a distracter, such as a loud whistle, to interrupt the behaviour (such as a fight) long enough for other methods of verbal control to be effective;

- withdrawal of attention (audience) e.g. if an action such as damage to property is threatened;
- other techniques designed to defuse the situation, such as the avoidance of confrontation, or use of humour (in these cases the incident can be dealt with later when emotions are no longer running high);
- the employment of other sanctions consistent with the School's policy on behaviour.

3.3 Use of physical restraint

Physical restraint should be applied as an act of care and control with the intention of re-establishing verbal control as soon as possible and, at the same time, allowing the pupil to regain self-control. It should never take a form which could be seen as a punishment. Staff are authorised to use reasonable force only in applying physical restraint, although there is no absolute definition of this, as what constitutes reasonable force depends upon the particular situation and the pupil to whom it is being applied. However, as a general rule, only the force necessary to stop or prevent the behaviour should be used, in accordance with the guidelines below.

There are some forms of physical intervention, which may involve minimal physical contact, such as blocking a pupil's path or the staff member physically interposing him or herself between the pupil and another pupil or object. However, in some circumstances, direct physical contact may be necessary. In all circumstances other methods should be used if appropriate or effective physical restraint should be a last resort.

KCSIE 2021 provides additional guidance that reasonable force may involve either passive physical contact, such as standing between pupils or blocking a pupil's path, or active physical contact such as leading a pupil by the arm out of the classroom.

When considering the use of reasonable force towards children with SEND or medical conditions, the risks should be carefully considered and reasonable adjustments made in relation to individual needs.

Individual behaviour plans, personal health or medical plans and other forms of proactive behaviour support should be taken into account to reduce the need for reasonable force.

When physical restraint becomes necessary:

DO

- Tell the pupil what you are doing and why;
- Use the minimum force necessary;
- Involve another member of staff if possible;
- Tell the pupil what s/he must do for you to remove the restraint (this may need frequent repetition);
- Use simple and clear language;
- Hold limbs above a major joint if possible e.g. above the elbow;
- Relax your restraint in response to the pupil's compliance.

DON'T

- Act in temper (involve another staff member if you fear loss of control);
- Involve yourself in a prolonged verbal exchange with the pupil;

- Attempt to reason with the pupil;
- Involve other pupils in the restraint;
- Touch or hold the pupil in sexual areas;
- Twist or force limbs back against a joint;
- Bend fingers or pull hair;
- Hold the pupil in a way which will restrict blood flow or breathing e.g. around the neck;
- Slap, punch, kick or trip up the pupil.

3.4 Actions after an incident

Physical restraint often occurs in response to highly charged emotional situations and there is a clear need for debriefing after the incident, both for the staff involved and the pupil. A member of the leadership team should be informed of any incident as soon as possible and will take responsibility for making arrangements for debriefing once the situation has stabilised. An appropriate member of the teaching staff should always be involved in debriefing the pupil involved and any victims of the incident should be offered support, and their parents informed on the same day by the Headteacher (see below). A copy of the form in Appendix 5 must be completed by the member of staff involved and any adult witnesses on the same day as the incident and passed to the person reviewing the incident. In incidents where a member of SLT or the Headteacher is involved the Safeguarding Board Member or a member of the Board must be informed.

If the behaviour is part of an ongoing pattern it may be necessary to address the situation through the development of a behavioural EHC plan, which may include an anger management programme, or other strategies agreed by the SENCO. It is also helpful to consider the circumstances precipitating the incident to explore ways in which future incidents can be avoided. All incidents should be recorded immediately. All sections of this report should be completed so that in the event of any future complaint a full record is available. The Headteacher (or, in his/her absence, a member of the leadership team) will contact parents as soon as possible after an incident, normally on the same day, to inform them of the actions that were taken and why, and to provide them with an opportunity to discuss it.

4 Risk Assessments

If The Belvedere Preparatory School becomes aware that a pupil is likely to behave in a disruptive way that may require the use of reasonable force, The Belvedere Preparatory School will plan how to respond if the situation arises. Such planning will address:

- Management of the pupil (e.g. reactive strategies to de-escalate a conflict, holds to be used if necessary);
- Involvement of parents to ensure that they are clear about the specific action the school might need to take;
- Briefing of staff to ensure they know exactly what action they should be taking (this may identify a need for training or guidance);
- Identification of additional support that can be summoned if appropriate.

5 Complaints

A clear restraint policy, adhered to by all staff and shared with parents, should help to avoid complaints from parents. It is unlikely to prevent all complaints, however, and a dispute about the use of force by a member of staff might lead to an investigation, either under disciplinary procedures or by the Police and social services department under child protection procedures. It is our intention to inform all staff, pupils, parents and governors about these procedures and the context in which they apply.

6. When might it be appropriate to use reasonable force?

Examples of situations that may require restraint are when:

- a pupil attacks a member of staff, or another pupil;
- pupils fighting;
- a pupil is causing, or at risk of causing, injury or damage by accident, by rough play, or by misuse of dangerous materials, substances or objects;
- a pupil is running in a corridor or on a stairway in a way in which he/she might have or cause an accident likely to injure her/himself or others;
- a pupil absconding from a class or trying to leave school (NB this will only apply if a pupil could be at risk if not kept in the classroom or at school);
- a pupil persistently refuses to obey an order to leave an area;
- a pupil behaves in such a way that seriously disrupts a lesson.

Acceptable Physical Contact

It is inappropriate to rule out all forms of physical contact between adults and pupils in school. In many circumstances, particularly with younger pupils, physical contact is important in providing comfort, reassurance and trust. It is important, therefore, that acceptable parameters for physical contact are understood and followed. Staff should be careful that their actions do not lead to misinterpretation, making themselves vulnerable to accusations of inappropriate contact. In this context, this section should be read in conjunction with Section 10 (Safe Working Practice) of this policy.

General Principles:

- Physical contact should always be a response to the needs of the child, not the adult and should last only as long as is necessary;
- It should take place only with the child's clear consent;
- Adults should be aware of any religious or cultural practices or beliefs which may influence whether physical contact is acceptable;
- Aspects of the curriculum, such as coaching in sport, music, drama and dance, may be more effectively taught through strategies which involve physical contact. However, these should be undertaken in a public arena, such as a class situation, and not in one-to-one tuition.

Specific Considerations

- The administration of first aid or medication may necessitate contact proximate to intimate areas of the body. In such circumstances, administration should be undertaken in a manner which respects the dignity of the patient by someone who is suitably qualified. Except with the youngest children, and

thereafter, in accordance with age-appropriate expectations, administration should preferably be undertaken by someone of the same gender and a second adult should be present.

14. RADICALISATION AND EXTREMISM: THE 'PREVENT' STRATEGY

Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups. Extremism is the vocal or active opposition to fundamental values and includes calling for the death of members of the armed forces. The school is committed to supporting the 'Prevent' strategy in relation to radicalisation and extremism. It works to prevent children being drawn into supporting extremist ideas and terrorist ideology and to help them develop resilience to radicalisation. The Belvedere Safeguarding Board Member is the Board committee's 'Prevent lead person' and the DDSL is the nominated member of staff to be the 'Prevent lead person' in school.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media) and settings (such as the internet). However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately, which may include the DSL or deputy making a referral to the Channel programme.

Further information on the Prevent duty can be found via the link in Appendix 2.

The school undertakes the following measures in relation to the 'Prevent Strategy':

- 'Prevent' is considered carefully as part of the school's safeguarding procedures;
- All staff and volunteers undertake training in respect of 'Prevent';
- The DDSL undertakes a higher level of 'Prevent' training in order to support staff, engage effectively with external agencies and follow reporting and information sharing protocols appropriately;
- 'Prevent' is considered carefully in the appointment of new staff, volunteers and contractors and in the admitting of visitors and visiting speakers to the school;
- 'Prevent' is a topic for governance, staff and SLT meetings;
- There is a clear referral route through the DSL to 'Channel';
- The school strongly promotes fundamental British values in curricular and extra-curricular activities and the promotion of the school's ethos and aims;
- The school will work as required with other agencies, including the LADO, LSCB, Children's Services and 'Channel' with regard to the 'Prevent' agenda;
- Computer systems have appropriate levels of filtering to ensure, insofar as is possible, that terrorist and extremist material is suitably controlled;
- The school provides internet safety training for pupils, parents and staff and pupils are strongly supported to enable them to use the internet safely;

- PSHE lessons, assemblies and other areas of the curriculum and extra-curricular programme include topics to help develop pupils' resilience to radicalisation.

15. VETTING VISITING SPEAKERS

The school is aware of the potential risk to children through exposure to views of visiting speakers whose presentations may include material of an extremist nature or which contradicts the school's commitment to provide pupils with a balance of opposing political views. Accordingly, the school undertakes a range of measures to vet the content of presentations by visiting speakers. The level of checking will be determined by an assessment of the likely level of risk and may include the following measures:

- The visiting speaker will be asked to provide assurance that the content of the presentation does not include material of a radicalising or extremist nature and is not in any other way inappropriate for the pupils involved;
- Presentations, such a Power Point, will be required in advance and will be checked by the member of staff responsible and discussed with the speaker;
- Visiting speakers will always be accompanied. A member of staff will attend presentations to pupils and will be prepared to intervene, should the content stray from agreed expectations;
- An appropriate level of checks, including an identity check, will be undertaken on visiting speakers, particularly any not previously known to the school. Most speakers will be well known to the school (parents, local professionals, religious leaders) and the school will be familiar with their standing and reputation. Where a speaker represents an organisation, for example, the fire service or a charity, identity checks will include verification of the speaker's connection with the organisation;
- The school's vetting procedures may include an internet search to check for links with inappropriate organisations or the expression of extremist views which would indicate that it would be inappropriate to address pupils at the school.

The above procedures apply at an appropriate level, to all situations where visitors present to the pupils, not simply formal talks, but also the more informal visits to class, covering topics from dental care to Diwali. The procedures are also followed where speakers visit at the invitation of pupils. Any such pupil invitation must be approved by a member of the SLT.

16. REVIEWING THIS POLICY

When reviewing this policy the school will draw on the expertise of staff in shaping the safeguarding arrangements and policies, to ensure that the school considers at all times what is in the best interests of the child.

THE BELVEDERE PREPARATORY SCHOOL

APPENDIX 1: HELPFUL INFORMATION

CHILD PROTECTION (SAFEGUARDING) POLICY: APPENDICES

This section is designed to provide information that facilitates understanding of key terminology and indicators:

WHAT IS CHILD ABUSE? Defined in the Government guidance KCSIE (September 2021)

Staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (e.g. via the internet). They may be abused by an adult or adults or another child or children.

There are four types of child abuse:

- Physical abuse
- Emotional abuse
- Sexual abuse
- Neglect

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing.

They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Bullying is not defined as a form of abuse in Working Together but there is clear evidence that it is abusive and will include at least one, if not two, three or all four, of the defined categories of abuse.

The following provides useful guidance on specific further categories of abuse;

Child Sexual Exploitation

In February 2017 the DfE published updated guidance on Child Sexual Exploitation, in the form of an update to Working Together 2018. The updated guidance includes the following definition:

- Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology.

Children may receive something in exchange for performing sexual activities. This can include food, accommodation, drugs, alcohol, cigarettes, affection, gifts, or money. Children rarely report child sexual exploitation, so it is important that staff are aware of the potential indicators. These include:

- Acquisition of money, clothes, mobile phones etc. without plausible explanation;
- Gang-association and/or isolation from peers/social networks;
- Exclusion or unexplained absences from school, college or work;
- Leaving home/care without explanation and persistently going missing or returning late;
- Excessive receipt of texts/phone calls;
- Returning home under the influence of drugs/alcohol;
- Inappropriate sexualised behaviour for age/sexually transmitted infections;
- Evidence of/suspicions of physical or sexual assault;

- Relationships with controlling or significantly older individuals or groups;
- Multiple callers (unknown adults or peers);
- Frequenting areas known for sex work;
- Concerning use of internet or other social media;
- Increasing secretiveness around behaviours; and
- Self-harm or significant changes in emotional well-being

Staff have been made aware of the updated guidance and recognise that no school, community or social group is immune to the risk of child sexual exploitation, including online, and it can affect both boys and girls. Children can be perpetrators as well as victims.

Appendix 2 provides links to relevant documentation relating to child sexual exploitation.

Serious Violence and County Lines

The school ensures that all staff are aware of indicators which may signal that children are at risk from, or are involved in, serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in well-being, or signs of assault or unexplained injuries. Unexplained gifts of new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity; drug networks or gangs groom and exploit children and young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns.

Key to identifying potential involvement in county lines are missing episodes, when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism should be considered. Like other forms of abuse and exploitation, county lines exploitation:

- can affect any child or young person, male or female, under the age of 18;
- can affect any vulnerable adult over the age of 18;
- can still be exploitation even if the activity appears consensual;
- can involve force and/or enticement methods of compliance and is often accompanied by violence or threats of violence;
- can be perpetrated by individuals or groups, males or females, and young people or adults;
- is typified by some form of power imbalance in favour of those perpetrating the exploitation.

Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

The school ensures that staff are aware of the associated risks of serious violence and county lines and understand the measures in place to manage these. Links to advice for schools on preventing youth violence and gang involvement and on county lines are to be found in Appendix 2.

FGM (Female Genital Mutilation)

FGM is a crime committed usually within the scope of honour-based violence. FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs for non-medical reasons. It has no health benefits and harms girls and women in many ways. It involves removing and damaging healthy and normal female genital tissue, and hence interferes with the natural function of girls' and women's bodies. The age at which girls undergo FGM varies enormously according to the community. The procedure may be carried out when the girl is newborn, during childhood or adolescence, just before marriage or during the first pregnancy. However, the majority of cases of FGM are thought to take place between the ages of 5 and 8 and, therefore, girls within that age bracket are at a higher risk. FGM is illegal in the UK. On the 31 October 2015, it became mandatory for teachers to personally report known cases of FGM to the police. Please refer to section 5, above for information on this mandatory duty and to Appendix 2 for relevant contact information.

For cases where it is believed that a girl may be vulnerable to FGM or there is a concern that she may be about to be genitally mutilated the staff will inform the DSL who will report it as with any other child protection concern.

Honour-Based Violence (HBV)

Honour-based violence is a violent crime or incident which may have been committed to protect or defend the honour of the family or community, including FGM, forced marriage, and practices such as breast ironing. It is often linked to family or community members who believe someone has brought shame to their family or community by doing something that is not in keeping with their unwritten rule of conduct. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBV are abuse (regardless of the motivation) and should be handled and escalated as such. Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBV, or already having suffered HBV.

Honour based violence might be committed against people who:

- become involved with a boyfriend or girlfriend from a different culture or religion;
- want to get out of an arranged marriage;
- want to get out of a forced marriage;
- wear clothes or take part in activities that might not be considered traditional within a particular culture;
- convert to a different faith from the family.

Women and girls are the most common victims of honour-based violence. However, it can also affect men and boys. Crimes of 'honour' do not always include violence. Crimes committed in the name of 'honour' might include:

- domestic abuse;
- threats of violence;
- sexual or psychological abuse;

- forced marriage;
- being held against your will or taken somewhere you don't want to go;
- assault.

If staff have a concern regarding a child that might be at risk of HBV or who has suffered from HBV, they should speak to the DSL or deputy. As appropriate, they will activate local safeguarding procedures, using existing national and local protocols for multiagency liaison with police and children's social care. However, if it is clear that a crime has been committed or the pupil is at immediate risk, the police will be contacted in the first place. It is important, if honour-based violence is known or suspected, that communities and family members are NOT spoken to prior to referral to the police or social care as this could increase risk to the child.

Children Missing From Education

The school views absence as an issue related to both safeguarding and educational outcomes. Measures have been taken to adopt the additional admissions and attendance requirements which came into force on 5th September 2016 with a view to minimising the occurrence of children missing from education. Relevant staff have received training from the school's safeguarding governor in the implications and implementation of these measures. The school liaises with and reports to the Local Authority, as required, on these matters and may take steps that could result in legal action for attendance, or a referral to children's social care, or both. In accordance with the requirements of KCSIE 2021, the school holds, so far as is reasonably possible, more than one emergency contact number for each pupil.

Patterns of children missing education, particularly repeatedly, can be a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and child criminal exploitation. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation or risk of forced marriage.

Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Staff should be aware of the school's unauthorised absence and children missing from education procedures. It is essential that they are assiduous in their prompt completion of attendance registers, liaise closely with the school office to resolve any unexplained absences, and report any concerns about absence to the DSL. A relatively short length of time a child is missing does not reduce risk of harm to that child, and all absence or non-attendance is considered with other known factors or concerns. On a day-to-day basis administrative staff monitor registers for patterns of absence and the DSL/a member of SLT undertakes a regular review of attendance records to analyse for patterns and trends.

The DSLs and staff consider the following, as appropriate:

Children missing lessons:

- Are there patterns in the lessons that are being missed?
- Is this more than avoidance of a subject or a teacher?
- Does the child remain on the school site?
- Is the child being sexually exploited during this time?

- Is the child late because of a caring responsibility?
- Has he or she been directly or indirectly affected by substance misuse?
- Are other pupils routinely missing the same lessons, and does this raise other risks or concerns?
- Is the lesson being missed one that would cause bruising or injuries to become visible?

Children missing single days:

- Is there a pattern in the day missed?
- Is it before or after the weekend suggesting the child is away from the area?
- Are there specific lessons or members of staff on these days?
- Is the parent informing the school of the absence on the day?
- Are missing days reported back to parents to confirm their awareness?
- Is the child being sexually exploited during this day?
- Do the parents appear to be aware?
- Are the pupil's peers making comments or suggestions as to whereabouts of the pupil? Children with continuous days of absence:
- Has the school been able to make contact with the parent?
- Is medical evidence being provided?
- Are siblings attending school (either our or local schools)?
- Did we have any concerns about radicalisation, FGM, forced marriage, honour based violence, sexual exploitation?
- Have we had any concerns about physical or sexual abuse?

Forced Marriage

In the case of children: 'A forced marriage is a marriage in which one or both spouses cannot consent to the marriage and duress is involved. Duress can include physical, psychological, financial, sexual and emotional pressure.' In developing countries 11% of girls are married before the age of 15. One in 3 victims of forced marriage in the U.K. are under 18. It is important that all members of staff recognise the presenting symptoms, how to respond if there are concerns and where to turn for advice. Advice and help can be obtained nationally through the Forced Marriage Unit and locally

through the local police safeguarding team or children's social care. The school's policies and practices reflect the fact that, while all members of staff have important responsibilities with regard to pupils who may be at risk of forced marriage, they should not undertake roles in this regard that are most appropriately discharged by other children's services professionals, such as police officers or social workers.

Characteristics that may indicate forced marriage:

While individual cases of forced marriage, and attempted forced marriage, are often very particular, they are likely to share a number of common and important characteristics, including:

- an extended absence from school/college, including truancy;
- a dip in performance or sudden signs of low motivation;
- excessive parental restriction and control of movements;
- a history of siblings leaving education to marry early;
- poor performance, parental control of income and pupils being allowed only limited career choices;
- evidence of self-harm, treatment for depression, attempted suicide, social isolation, eating disorders or substance abuse; and/or
- evidence of family disputes/conflict, domestic violence/abuse or running away from home.

On their own, these characteristics may not indicate forced marriage. However, it is important to be satisfied that, where these behaviours occur, they are not linked to forced marriage. It is also important to avoid making assumptions about an individual pupil's circumstances or act on the basis of stereotyping. For example, an extended holiday may be taken for entirely legitimate reasons and may not necessarily represent a pretext for forced marriage.

Definition of harm & significant harm - adoption & children act 2002 (section 10)

"Ill treatment or the impairment of health or development (impairment suffered from seeing or hearing the ill treatment of another)."

'Development' means physical, intellectual, emotional, social or behavioural development.

'Health' means physical or mental health.

'Ill treatment' includes sexual abuse and forms of ill treatment which are not physical.

NB: The Adoption & Children Act 2002 s120 amended the definition of harm to include those instances

where a child may witness domestic violence.

Recognition of significant harm.

Significant harm includes an allegation of a sexual nature or parents whose behaviour may present risk because of:

- Domestic violence, drug and alcohol abuse and mental health problems;
- Any physical injury caused by assault or neglect which requires medical attention;
- Repeated incidents of physical harm;
- Any contact with a person assessed as presenting a risk to children;
- Children who live in low emotional warmth, high criticism environments;
- Children who suffer from persistent neglect;
- Children who may be involved in prostitution;
- Other circumstances where professional judgement and/or evidence suggest a child's health, development or welfare may be significantly harmed.

Indicators of abuse

Physical:

- Unexplained injuries, burns, bruises;
- Finger marks;
- Fear of undressing or medical help;
- Improbable explanations for injuries;
- Fear of returning home or parents being contacted;
- Unexplained absence from school.

Neglect:

- Constant hunger;
- Poor personal hygiene;
- Inappropriate clothing;
- Frequent lateness and non-attendance;
- Poor social relationships;
- Constant tiredness;
- Independent and street wise;
- No parental support for education;
- Compulsive stealing or scrounging;
- A child going missing from an education setting is a potential indicator of abuse and neglect.

Emotional Abuse:

- Fear of new situations;
- Inappropriate emotional responses;
- Self-harm;
- Reluctance to accept praise;
- Low self-esteem;
- Lack of home support;
- Depressed and withdrawn;
- Social isolation – not joining in, and few friends.

Sexual Abuse:

- Bruises;
- Scratches;

- Bite marks on the body;
- Persistent infections in the anal or genital area;
- Any sexual awareness inappropriate to child's age – shown in drawings, play, vocabulary;
- Frequent masturbation;
- Changes in behaviour;
- Refusal to stay with certain people;
- Self-harm;
- Depression;
- Low self-esteem;
- Pregnancy.

Recognition of abuse

Be open to possibilities. Be aware – if you don't believe it is possible you will never see it. Don't jump to conclusions and look for credible non-abusive explanations, but recognise you may need to seek advice to evaluate the facts. Don't let your preconceptions of the family skew your judgement.

The symptoms of stress and distress

An abused child will usually show signs of stress and distress. Possible signs of abuse include, but are not limited to, those listed below. Many of these may, of course, have nothing to do with abuse, but are worth consideration in trying to understand the child's behaviour:

- A drop in school performance
- Aggressive or hostile behaviour
- Difficulties in relationships with peers
- Excessively affectionate or sexual behaviour towards adults or other children
- Regression to more immature forms of behaviour
- Self-harming or suicidal behaviour
- No reasonable or consistent explanation for a pupil's injuries, or a pattern of injuries
- Disturbed sleep

In addition to the information provided in Section 14 on Radicalisation and Extremism and in this section on Abuse, staff can refer to Annex A of KCSIE 2021 for information on further specific areas of concern about vulnerability, including:

- Children and the court system;
- Children with family members in prison;
- Child criminal exploitation;
- Child sexual exploitation

- Child mental health;
- Domestic abuse;
- Homelessness.

Staff should ensure that they are familiar with the information provided within Annex B of KCSIE 2021 and if they have any concerns report them to the DSL.

APPENDIX 3

SCHOOL REFERRAL

Child Protection and Child Welfare Flowchart

If a member of staff or volunteer has concerns about a young person's welfare because the child has disclosed abuse towards them, or the member of staff is concerned by physical or behavioural changes in the child which may indicate abuse or neglect, they must report their concerns (without investigating the matter) **immediately to the Designated Safeguarding Lead or a senior member of staff. Consideration should be given for the need to immediately protect the child by contacting the police or ensuring emergency medical treatment.** The member of staff or volunteer should record their concerns in writing, describing exactly what the child has said and/or what they have observed. *(All adults within the school must follow the School's Code of Conduct and attend regular safeguarding training. All adults must read Part 1 of the DfE guidance Keeping Children Safe in Education 2021).*

Allegations or concerns about an adult working within the school should be shared with the Headteacher or Designated Safeguarding Lead. Concerns about the Headteacher should be reported to the Management Board or Local Authority Designated Officer (tel **0151 233 3700**).

The Designated Safeguarding Lead will draw upon Liverpool Safeguarding Children's Board: 'Responding to Need Guidance and Levels of Need Framework' (www.liverpoolscb.org/) and ring Careline to share the school's concerns. This may lead the school to make a written referral to Children's Services. The Designated Safeguarding Lead will agree with Careline (tel **0151 233 3700**) how the parent/carers will be informed, if that is appropriate. **If the child's situation does not appear to be improving the staff member with concerns should press for re-consideration. Anybody can make a referral in exceptional circumstances such as an emergency or there is a genuine concern that appropriate action has not been taken (tel 0151 233 3700).** Given that 'concerns should always lead to help for the child at some point' the school should undertake, with other agencies, an Early Help Assessment when the child's level of need has not met the threshold for statutory assessment.

APPENDIX 3A

THE BELVEDERE PREPARATORY SCHOOL

CHILD PROTECTION / CHILD WELFARE CONCERN FORM

Concerns should be reported **immediately** to the Designated Safeguarding Lead. Following verbally reporting your concerns complete this form and hand it to the Designated Safeguarding Lead. The school's child protection procedures should always be followed. It is important not to investigate concerns but for the school to report them to children's services (and when necessary police).

APPENDIX 4: LETTERS TO PARENTS AND CHILDREN REGARDING INTERNET USE

Dear Parents

RESPONSIBLE INTERNET USE

As part of your child's curriculum and the development of ICT skills, The Belvedere Preparatory School provides supervised access to the Internet. We believe that the use of the World Wide Web and e-mail is worthwhile and is an essential skill for children as they grow up in the modern world. Please would you read the attached e-safety policy, which forms part of our safeguarding policy and talk about it with your child. Then sign and return the consent form so that your child may use the Internet at school. Although there have been concerns about pupils having access to undesirable materials, we are taking positive steps to deal with this risk in school. Our school Internet provider operates a filtering system that restricts access to inappropriate materials. Whilst every endeavour is made to ensure that suitable restrictions are placed on the ability of children to access inappropriate materials, the School cannot be held responsible for the nature or content of materials accessed through the Internet. The School will not be liable for any damages arising from your child's use of the Internet facilities.

Our Rules also concern the types of communications that pupils make using computers and other technology. We would like your support in helping to ensure that the children at The Belvedere Preparatory School are using technology in a responsible and polite manner, and never in a way that could upset another person or spoil their work.

Yours sincerely

Miss C. Burnham
(Headmistress)

PARENT'S CONSENT FOR INTERNET ACCESS

I have read and understood the school rules for responsible Internet use and give permission for my son/daughter to access the Internet. I understand that the school will take all reasonable precautions to ensure pupils cannot access inappropriate materials. I understand that the school cannot be held responsible for the nature or content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from use of the Internet facilities.

PARENT'S CONSENT FOR INTERNET ACCESS

I have read and understood the school Rules for Responsible Internet Use and give permission for my child to access the Internet on the school computer network system. I understand that the school will take all reasonable precautions to ensure pupils cannot access inappropriate materials. I understand that the school cannot be held responsible for the nature or content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from the use of the Internet facilities.

Parent's name (printed):

Parent's Signature:

Date:

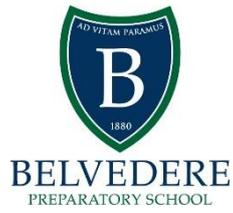

We record and evidence the efforts and achievements of our pupils through the use of film and photography. These are often used within the school as part of the learning process and to celebrate the successes of children. We highlight pupils' participation and achievements in school events and use photographs of pupils along with examples of their work. These may be used in school displays, publications or on our website. Where images of pupils are used we identify a pupil only by their first name or class unless further permission has been granted. From time to time we invite the local press to cover events and these stories may be featured in the local newspaper.

PLEASE COMPLETE THE FORM OVERLEAF AND RETURN IT TO SCHOOL.

PLEASE TICK APPROPRIATE COLUMN AND SIGN ALL SECTIONS.
